The Company

PT. Dwi Prima Engineering is established in the year 2001. A mid size company specializing in trading, install & commissioning and services of Pumps and Valves for the variety of Industries, Light and Heavy Industries, Municipals, Irrigation, High Rise Building, Water and Waste Water Treatment, OEM, Power Plant, Oil & Gas, Petrochemicals, etc.

PT. Dwi Prima Engineering didirikan pada tahun 2001. Sebuah perusahaan menengah dengan spesialisasi perdagangan, pemasangan dan komisioning. Kemampuan melakukan perbaikan pompa dan valve untuk berbagai industri, industri ringan dan berat, pemukiman, irigasi, gedung bertingkat, pengolahan air bersih dan air limbah, OEM, Pembangkit listrik, Migas, Petrokimia, dan lain sebagainya.

The Vision

Top 5 best brand and Total Solution for Pump Systems and Valves equipment.

Top 5 brand terbaik serta Solusi Total untuk Sistem Perpompaan dan Peralatan Valve.

The Mission

For Provide excellent products and services to improve the quality of human life and environment for nationwide development.

Menyediakan produk dan jasa terbaik demi meningkatkan kualitas hidup manusia dan lingkungan untuk pengembangan di seluruh negeri.

The Business

PT.Dwi Prima Engineering is engaged in supplying individual pumps and valves equipment, assembling the package booster pumps, fire fighting hydrant pumps, skid mounted chemical Injection pumps . electrical pump control panels, as well as installation and services of mechanical and electrical equipments. The market also covered through some representative offices and exclusive dealers in certain territory.

PT. Dwi Prima Engineering bergerak dalam bidang pengadaan peralatan pompa dan valve, perakitan pampa paket booster, paket pompa hydran, paket skid pompa injeksi kimia, panel kontrol pompa berikut pemasangan dan perbaikan peralatan mekanikal dan elektrik. Pemasaran juga dijalankan melalui beberapa kantor perwakilan dan penyalur eksklusif di daerah-daerah tertentu.

The Products

PT. Dwi Prima Engineering is an exclusive agent for some well known pump and valve brands such as: BOMBAS IDEAL, MILTON ROY, LMI MILTON ROY, HOMA, EQUAL, DEBEM, DYNA FLO, and IN LINE VALVE and Franklin products.

Also as an exclusive dealer for ITT LOWARA,

PT. Dwi Prima Engineering merupakan agen eksklusif untuk beberapa merek pompa dan valve yang terkenal, antara lain :

BOMBAS IDEAL, MILTON ROY, LMI MILTON ROY, HOMA, EQUAL, DEBEM, DYNA FLO, IN LINE VALVE, dan FRANKLIN

Serta sebagai penyalur eksklusif untuk produk ITT LOWARA

The Products

PUMPS

Since 1902, Bombas Ideal has been creating effective solutions for any need of water pumping. The range of products of Bombas Ideal takes all kind of pumps: horizontal pumps and domestic equipments; standardized centrifugal horizontal pumps; vertical turbine pumps; submersible pumps for wells; pressure boosters; fire fighting pumps (NFPA-20, FM/UL); submersible pumps for drainage and sewage treatment waters.

Sejak tahun 1902 Bombas ideal telah menciptakan solusi yang efektif untuk kebutuhan pompa air. Adapun produk/ type dari Ideal Bombas antara lain: Centrifugal pumps, horizontal pumps, vertical turbine, fire fighting pumps (NFPA-20, FM/UL). submersible pumps untuk drainage dan sewage treatment waters.

Complete range of centrifugal pumps with the quality to fulfill the need of all kind of water pumping application. From water transfer, water booster system, sewage pumping to chiller and fire fighting system.

Pompa centrifugal untuk memenuhi semua kebutuhan mengenai pengaplikasian pengolahan air antara lain pompa Transfer, Booster, Sewage pumping to chiller dan Fire Fighting system.

Heavy duty submersible pumps range for sewage applications containing solids. Robust construction of body, Impeller and motor to with stand the rough working environment.

Pompa submersible dengan kapasitas besar yang dipergunakan untuk mengolah air limbah dengan struktur pompa impeller dan motor yang tangguh untuk diperasikan di lingkungan tersulit

The full line of Chemical Dosing Pumps, Accessories and Controllers. The "Yellow & Black" trade mark continues to shape the future! Selection of Electronics, Mechanical and/or Hydraulic actuated dosing pumps offers simple installation and maintenance. Wide range of application as well as some API675 products in certain area.

Pompa dosing kimia aksesories dan kontroler, pompa dengan ciri khas "kuning dan hitam ini terus berkembang dimasa yang akan datang. Pompa dengan penggerak elektronik, mekanik atau hidrolik dengan pemasangan dan perawatan yang sederhana. Aplikasi yang luas sesuai dengan API 675 pada area tertentu.

Pneumatic driven diaphragm pumps designed to with stand even the most testing and aggressive conditions. Easy to install, high performance pumps. Reliable, long

lasting operation. Huge choice of construction materials allow optimum chemicals compatibility. Also available : Electric Driven Centrifugal Pump, Vertical Transfer Pumps and Mixers.

Pompa diaphragm penggerak Pneumatic dengan desain yang stabil walaupun sering dilakukan pengetesan dalam kondisi agresif. Mudah dalam pemasangan, tampilan pompa yang berkualitas, handal dalam pengoperasian dengan waktu yang lama. Pemilihan bahan konstruksi yang sesuai menentukan kimia yang lebih tepat. Tersedia juga Centrifugal pump, Vertical transfer pump dan Mixers.

A large range of Franklin Pumps including Submersible Bore Pumps, Bore Pump Motors, Control Boxes, Pump Protection for Single phase and three phase motors and many other Franklin Pumping System products.

Franklin pumps memiliki berbagai macam type pompa termasuk Submersible Bore Pumps, Bor Pump Motor, Control Boxes, Pump Protection untuk single phase dan three phase motors dan masih banyak lagi produk Franklin lainnya.

Lowara Pumps offer cost effective high quality pumps that cover a range of applications. From the popular drainage submersible DOC, DIWA and DOMO's to the HYDROVAR and MINIVAR inverte pump control unit's, CEA, CA, FHE, and the new EHM multistage pumps.

Pompa lowara menawarkan biaya efektif, kualitas tinggi yang mencakup berbagai aplikasi dari yang terpopuler drainase DOC submersible, DIWA dan DOMO kepala HYDROVAR dan MINIVAR unit kontrol pompa inverter, CEA, CA, FHE, dan pompa multistage EHM baru.

The Products

VALVES

Range of control valves suitable for variety of gases or fluids application, high pressure capability, sizes, material selection and construction to ASME standard. Pneumatically actuated, V-Ball or Globe type valve.

Product Control Valve cocok untuk berbagai jenis aplikasi, baik itu untuk gas maupun fluida dengan berbagai ukuran. Pemilihan material maupun untuk tekanan yang tinggi dibuat dengan standar ASME model Pneumatically actuated, V-Ball atau model Globe Valve.

Heavy duty and industry proven Gate Valve, Globe Valve, Check Valve, Choke Valve and Severe Service Electro or Electro Hydraulic Actuated Control Valve. "Better by Design" therefore provide "Best Value" solutions to flow control.

Gate Valve, Globe Valve, Check Valve, Choke Valve, dan Severe Service Valve yang telah teruji di Industri, Electro ataupun Electro Hydraulic Actuated Control Valve. "Design terbaik" memberikan solusi dengan "Nilai terbaik" terhadap kontrol aliran.

The Facilities

Workshop for pump assembling, service and repair,
assembling facility chemical dosing package,
safety valve and control valve testing and repair facility
warehouse for units and spare parts, installation and
service team, delivery fleet.

Bengkel perakitan dan perbaikan pompa, fasilitas perakitan,
chemical dosing package, fasilitas pengetesan dan perbaikan
safety valve dan control valve, gudang unit dan suku cadang,
tim pemasangan dan perbaikan, dan armada pengiriman.

The Experiences

Transfer Pumps at Mineral Water Industry

Sukabumi

Chiller Pumps at Office Building

Tasikmalaya

Chiller Pumps at Factory.

Subang

Chemical Injection and Transfer Pump at WTP.

Bogor

Fire Hydrant Pump at Hotel and Apartement Building

Bandung and Kalimantan

Chiller Pumps and Booster Pumps at Hotel and Office Building

Bali & West Java

Chemical Injection Skid at Industrial

Cikarang & Perawang

Control Valves at Gas Station

Duri & Minas
