# PT. BESHA ANALITIKA

The Instruments  
Company

## - Company Profile

## - Company Profile

PT. Besha Analitika is a privately held Laboratory Instruments Company based in Jakarta, Indonesia. Since our inception in the year 1999, we are engaged in importing, trading and supplying of scientific laboratory equipment which are known for their high accuracy, precision, durability and high end technology from trusted manufacturers.

Our ability to find the right solution has evolved from the integration of our technical sales, service support, application, support groups, and allows us to deliver complete solutions at competitive price.

## - Company Profile

We have the experiences, capabilities, and facilities to meet any of client's needs. Our projects encompass government and private research and testing laboratories, private industries (Foods, Pharmaceuticals, Chemical Industries, and Mining) and Universities.

At PT. BESHA ANALITIKA, we believe the future growth and successes of our company will base on long term relationships, repeat customers, product quality and prompt service. It is our commitments to you to provide the highest quality sales and services at high level of excellent.

*AquaLab VSA*

*AquaLab PawKit*

## METER ENVIRONMENT

- ACCUPAR LP-80, Canopy Interception and Leaf area Index
- KSAT, Saturated hydraulic conductivity in the lab
- ECH2O 5TE, Soil moisture, Temperature, and Electrical Conductivity
- WP4C, Soil water potential lab instrumentation
- SMART FIELD LYSIMETER, Precise water balance
- SATURO, Field saturated hydraulic conductivity
- **PARIO, Automatic soil particle size analysis**
- ATMOS 41, All-in-one weather station
- TEREOS 21, Soil water potential
- HYPROP 2, Soil moisture release curve
- ECH2O EM50, Data Logging
- VSA, Soil moisture release curve
- TENSIMETER
- HYDROS 21, 3-in-1 water level sensor
- INFILTROMETER
