

WIN CALCIUM GREASE MP

Automotive & Industrial Greases

WIN CALCIUM GREASE MP is a multipurpose chassis grease made from synthetic blend base stock and calcium soap containing extreme pressure additive, rust, corrosion and oxidation inhibitor. It has a dark brown color and provide some tackiness properties. Its smooth and buttery texture increase penetration and lubrication purposes.

BENEFITS

WIN CALCIUM GREASE MP will provide the following performance benefits:

- * Excellent mechanical and oxidation stability.
- * Provide strong lubrication film strength.
- * Long lubrication life.
- * Eliminates bearing noise and reduces bearing wears..
- * Excellent water resistance.
- * Resistance caking and gumming in zero weather.
- * Resistance to softening and leaking.

APPLICATIONS

WIN CALCIUM GREASE MP is suitable for use in automotive wheel bearings of heavy vehicle, numerous agricultural equipment, machine tools, logging equipment and textile machinery.

TYPICAL PHYSICAL ANALYSIS RESULTS

WIN CALCIUM GREASE MP

NLGI Grade	No. 3
Color	Brown
Worked Penetration at 25 deg C	230
Dropping Point, deg C	105
Copper Strip Corrosion (20 deg C, 24hr)	Pass
Water Washout (38 deg C, 1hr)	3.0
Base Oil Flash Point	230
