

SARTORIUS

Experience quick start-up and streamline workflows dengan produk dan solusi platform kami yang cocok untuk memenuhi kebutuhan aplikasi laboratorium dan bioproses Anda. Dari sistem pemurnian air habis pakai dan laboratorium hingga teknologi penimbangan terkemuka di industri, solusi canggih kami juga mencakup penanganan cairan, fermentasi, filtrasi, dan pengelolaan cairan. Menjawab tuntutan yang meningkat untuk peningkatan kualitas, efisiensi, akurasi, kepatuhan, dan produksi dengan instrumentasi, perangkat lunak intuitif, pelatihan langsung, dan layanan komprehensif untuk industri biofarmasi, kimia, makanan dan minuman, dan sektor akademik.
