

**Your Trusted Partner
In Industrial Solutions Requirements**

ABOUT THE COMPANY

**Quality Product, High Credibility,
Excellent Integrity**

Since our establishment in 2002, our company has grown to provide only the best industrial machinery, from Air Compressors, Air Dryers, Water Chillers & Dehumidifiers, Nitrogen/Oxygen Generators, Air Audit Products, Cranes, Hoists, Winches, and Crane Accessories from a number of globally renowned brand partners.

As your trusted partner for industrial solutions, we distribute leading brands in industrial equipment including Hitachi, Mark, Orion, Nano, Inmatec, Suto and THAC.

Our quality products and high level of service is trusted by thousands of companies in a wide range of industries including electronics, automotive, petrochemical, textile, food and beverage and others.

We also pride ourselves in providing responsive & reliable supporting services such as Maintenance Contract, Consultation, Design & Fabrication, Training Center and Air Audit Service. With our comprehensive assortment of units & parts and a well-trained and dedicated service support team, we can provide full support through maintenance contracts or flexible on-demand services.

COMPANY CORE PRINCIPLES

- ✓ To always deliver our customer the highest caliber of service with competence & respect.
- ✓ To always provide our customer the best solution by doing our job with passion, focus, creativity and persistence.
- ✓ To always commit to give beyond what is expected with full integrity and deep responsibility.
- ✓ To champion teamwork & collaboration to achieve common goals.

WHY CHOOSE US

We are proud to be your trusted partner for industrial solutions, dedicated to providing the highest-quality products and services for all your industrial needs.

- ✓ High-quality industrial equipment from world-renowned brands, well-established for high power consumption efficiency and long maintenance lifespan for most effective 'Total Ownership Cost'
- ✓ Comprehensive assortment & reliable availability of spare parts
- ✓ 24/7 customer service
- ✓ Professional, well-trained service team
- ✓ Full-service solutions
- ✓ Active & responsive customer relations and after-sales service to better support your periodic maintenance schedule

PRODUCT BRIEF

HITACHI

Reciprocating Air Compressor

BEBICON is HITACHI piston-type small-air-compressor registered trademark used in various area of industry. Hitachi Bebicon Air Compressor has been produced and shipped around the world more than 3 million units since its introduction in 1946, makes it one of the oldest and prominent brand in the market. It offers oil-injection (0.75-15kW), oil-free (0.4-11kw), both horizontal and vertical tank mounted, as well as open and package type to satisfy your various needs. Booster compressor (1.5-11 kW) is also available.

Scroll Air Compressor

HITACHI range from 1.5-22kw, are suitable for low noise and low vibration type of application.

Screw Air Compressor

HITACHI is one of the oldest air compressor manufacturers in Japan and made their first air compressor in 1911. Since then, Hitachi has used its accumulating technology to produce technically advanced compressors to meet customers' need.

HITACHI Screw Air Compressors are designed to pursue the ultimate goal of higher Energy-Saving performance together with less environmental burdens. Its long and simple maintenance makes it reliable and cost effective.

Hitachi HISCREW oil-flooded screw air compressor's range from 7.5-240kw and DSP and SDS oil-free screw compressor's range from 15-500kw, can satisfy the needs of every customers. Broad range of air-cooled, water-cooled, built-in dryer and variable speed model are available.

Compressed Air System Accessories

We offer HITACHI complete accessories such as Air Dryers, Filters and Multi-unit Controller as well as other 3rd party products such as Orion, Nano and Suto.

ORION

REFRIGERANT AIR DRYERS

THE CITRA GROUP is the authorized distributor for ORION Machinery Co. Ltd., a company established in Japan in 1946 who is now the biggest Clean Air System Product Manufacturer in Japan.

Orion is the first Japanese air dryer manufacturer with its first dryer product launched in 1970.

Orion RAX and ARX Refrigerant Air Dryer products capacity range from as low as 0.3 m³/min to 300 m³/min air flow which can produce 5-15C PDP (pressure dew point) air output.

Orion air dryers are famous for their energy saving, environmentally conscious products, by producing low energy, low pressure loss, and easy maintenance dryers.

Orion also offer Heatless Air Dryers QSQ series, and wide range of Air Filters and its accessories such as auto drain, separators, aftercoolers, and also Air Cooling Temperature and Humidity Control Unit.

The company was appointed as the Authorized Distributor for ORION Machinery Co. Ltd., whose products range from Air Dryers, filters, accessories and also equipment-based Water Chillers.

PCM AIR DRYER

Deltech is a brand under SPX FLOW, a global public US company base in Charlotte, North Carolina, USA. Deltech offers compressed air filtration system refrigerated dryers (using innovative phase change materials), desiccant air dryer & others.

Contaminants found in compressed air can adversely affect all components of an air distribution system, and can cause a malfunction of pneumatic control in the instrument air system.

Properly treated compressed air can improve work efficiency and reduces maintenance, Desiccant and refrigerated type compressed air dryers are used in the control air systems of power plants.

>Deltech®

Product Brief

Since then, the company has broadened its products with other related products such as Non-Refrigerant air dryers, Nitrogen and Oxygen generators, and Air Audit Instruments to name a few

NON REFRIGERANT (DESICCANT) AIR DRYERS

THE CITRA GROUP also offer solution for a more stringent ISO class 1 and 2, especially for low humidity and water content of -201-40/-7CC pressure dew point with both Heatless and also Heated (Zero purge) Desiccant Air Dryers.

NANO Adsorption (Desiccant) Air Dryers Heatless NDL and HL series dryers range from 5 to 20,000 m³/h air flow capacity, where Heated or Blower Regenerated Air Dryer BP series range from 400 to 15,000 m³/h air flow, provide a zero purge desiccant dryer capability.

NANO also manufactures complete range of clean air products apart from standard Refrigerant and Desiccant dryers, from normal industrial filters to sterile filters, a ercoolers, water-oil separators, process condensate equipment, and others.

nano
PURIFICATION SOLUTIONS

Product Brief

WATER CHILLERS & DEHUMIDIFIER

Other Orion products that we offer are Chillers and Dehumidifier with line-up includes models suitable for every industrial application.

Our Chillers are built with high-level energy saving technologies and range from 1 kW to 100kW cooling capacity with separate or built-in water tank models.

With high-accuracy temperature and humidity control and compact design, our chillers are the one of the most popular OEM chiller maker in Japan.

N2 AND O2 GENERATORS

N2 and O2 Gas Generators from Inmatec are also available. Inmatec Gase Technologie GmbH & Co, based in Frankfurt Am Main, Germany, is a company specialized in designing and manufacturing O2 and N2 Gas Generator.

Both our PSA (Pressure Swing Adsorption) and Membrane Technology Gas Generators provide our clients with continual and secure production of variable purity of nitrogen and oxygen on site, in variety of industry from automotive, food and beverages, to oil & gas.

Inmatec low operating cost IMT-PN series generates N2 from 0.5 to 10,000 m3/h nitrogen from 95% up to 99.9999% purity whereas IMT-PO series generates O2 from 0.5 to 2,000 m3/h oxygen with purity up to 99.5%.

Product Brief

AIR AUDIT SOLUTION INSTRUMENTS

SUTO iTec GmbH, is a German company with long experience in Asia market, specialized in developing and manufacturing high quality and innovative measurement technology for compressed air systems.

Our products range from Flow meters, Dew Point meters, Display and Data Loggers, Air quality instruments like residual oil content and particle counter, and other sensors like leak detector, power meter, pressure and temperature sensors, etc.

AIR COMPRESSORS

In 2017 THE CITRA GROUP was appointed Distributor for MARK air compressor in Indonesia. As a compressor manufacturer, MARK was established in 1970 in Italy, with production facilities in Italy, Belgium and China.

Since then it has gained worldwide reputation in the industry especially in European market even before Atlas Copco aquired the company in 1998.

MARK compressors has been known for making compressor with SIMPLICITY and RELIABILITY concepts in mind, as well as quality, easy maintenance and safety.

For Indonesia market we will promote only Oil Injected Screw Air Compressor 7.5-75kw range, as well as complete range of Refrigerated Dryers before we start to widen our compressor range in the near future.

Our 25 years experience in the compressor industry will guarantee our customers' peace of mind in terms of after sales support and services.

PRODUCT BRIEF

HITACHI

Electric Chain Hoist

HITACHI Electric Chain Hoist has long been one of the thoughest hoists in the market. They are range from 250kg to 20 ton. Its reliability and safety features are known to be the best, some of them are:

- ✓ Reverse phase relay for reliability and safety
- ✓ Overload limiter
- ✓ Upper and lower switch
- ✓ Automatic adjusting brake with auxiliary brake unit for longer brake life

Electric Wire Rope Hoist

HITACHI produced the first Japanese Wire Rope Hoist in 1927, and since then has improved the performance to its current standard, famous for its technology and reliability which range up to 30 ton.

Some of those features are:

- ✓ Long life brake by using Automatic adjustment brake (patent) with Auxiliary brake unit.
- ✓ Double limit switch for more safety measures.
- ✓ Dual motor for double speed type.
- ✓ Hoisting motor with thermal protector.
- ✓ Quiet operation by applying helical gear.
- ✓ Inverter model from $\frac{1}{2}$ ton to 30 ton.

THAC

Crane System & Accessories

In order to provide complete crane system, THE CITRA GROUP also provide complete range of hoist up to 120 ton, special open winch as well as crane saddle, gear motor and wheel, C-track Cable Festoon System, Insulated Power Conductor System, Remote (Radio-controller) pendant, and other crane accessories. THE CITRA GROUP offers consultation, design, fabrication as well as installation of variety of crane systems such as overhead cranes, gantry, jib cranes, lift cargo and others.

OUR SERVICE

Service Center

All our offices come equipped with a service Center: the head office in Jakarta, Branch offices in Surabaya, Semarang & Solo plus a dedicated Service Center in the JABABEKA industrial area. We provide 24/7 assistance via maintenance contracts and special service requests. Our service team are regularly trained and fully supported by our partners/principals

Part Center

Each branch maintains a sufficient level of stock for Both consumables and original spare parts and Units, ready to deliver to you on quick notice

Consultation

Our skilled & highly experienced team provides expert consulting to offer you the best tailored, effective solutions to your requirements

Training Center

Each branch comes with a Training Center to educate on our product and services. We also offer specialized training at your location, suits for hand-on operating training, maintenance or service procedures

Maintenance Contract

Leave your equipment care to us – we offer Customized maintenance contracts so you can Focus on your operations and production efforts Hassle-free

Air Audit Services

We provide air quality check & air auditing services to Help your identify air-related problems in your process such As leakage in the production line, lack of air supply, your Compressed air quality such as oil and water content, or Just to check your air consumption pattern

Design & Fabrication

Our Professional team offers design of integrated systems Of various equipment including air compressors, overhead Cranes, gantries, jib cranes, cargo lift and more. We also provide a workshop dedicated to support the manufacturing of air compressor installations and crane fabrication
