

JUNGHEINRICH  
MATERIAL HANDLING EQUIPMENT

The Jungheinrich Group of Hamburg celebrated its 65th Anniversary in 2018 (having formed in 1953). In contrast to the USA, the new efficiencies offered by materials handling techniques were only adopted by European industry after the Second World War. A prime mover behind this development was Dr-Ing. Friedrich Jungheinrich who established a small workshop in northern Germany in 1953 to explore the potential benefits offered by modern handling innovations.

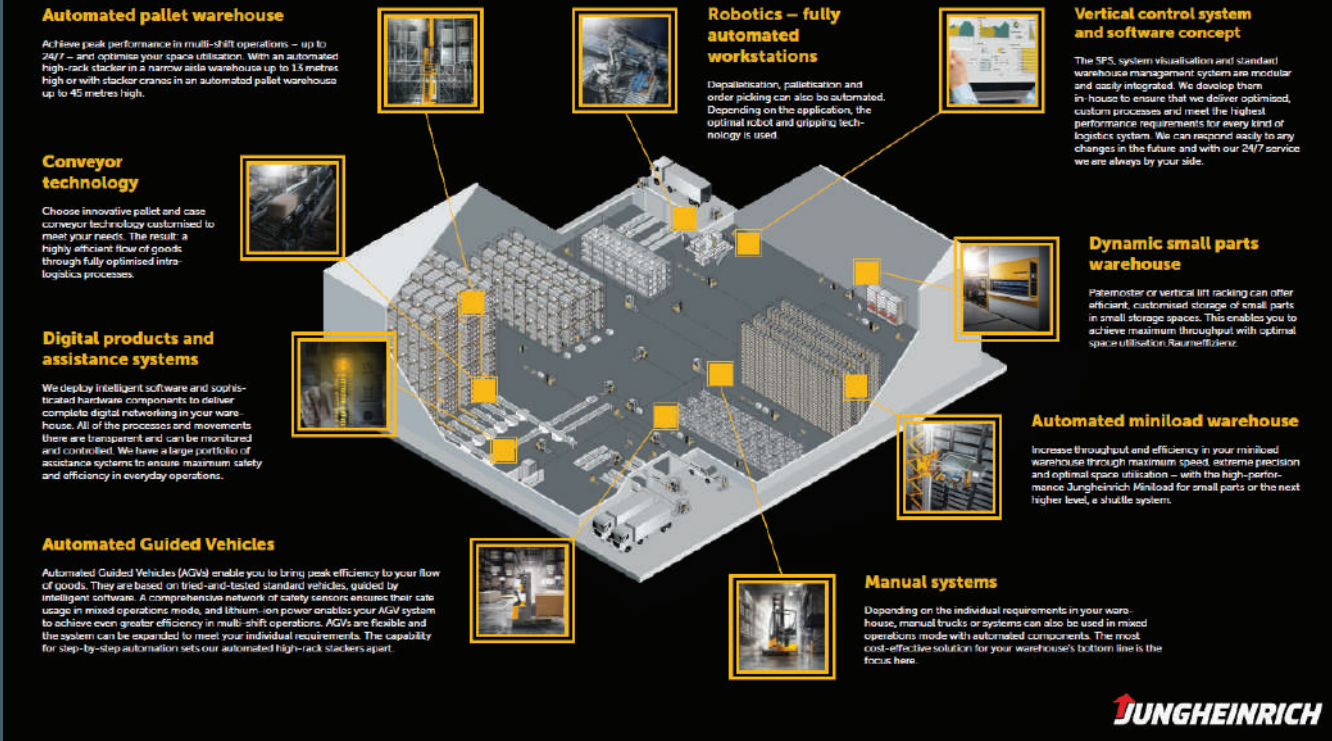

From those humble beginnings employing just 30 staff and achieving a first year turnover of DM 2.5m (£1m), the Group, with its headquarters remaining in Hamburg, has developed to become the number 1 supplier of warehousing technology in Europe. Jungheinrich group now has sales and service companies in 30 countries, dealer distribution networks all over the world including Australia, South Africa and China and has an international workforce of over 12,000 employees.

JUNGHEINRICH  
LOGISTIC SYSTEM

Racking is the key to optimum throughput efficiency. Our key offering is this: Integrated warehouse planning, where the racking and the forklift truck/rack operating equipment work "hand in hand" as a single, collaborative storage system.

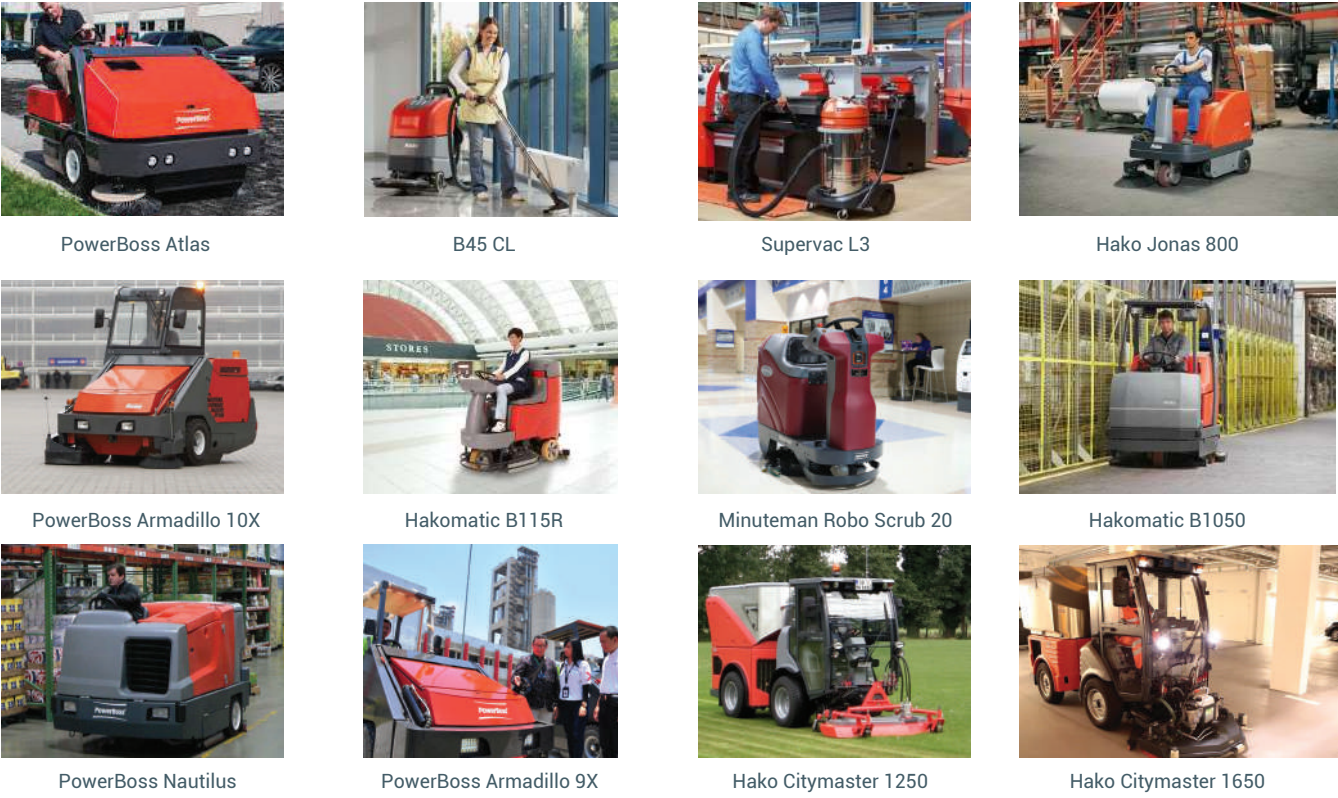

We provide a comprehensive range of racking and storage systems, mezzanines and self-supporting stores (silos) for accommodating everything from pallets, containers and trays to boxes and long goods. The efficiency of your entire material flow is increased by our bespoke warehouse racking system design.

HAKO - POWERBOSS - MINUTEMAN

Hako is an internationally leading manufacturer and supplier of professional machines and excellent services in the field of Cleaning and Municipal Technology. In addition to the company's main plant based in Bad Oldesloe near Hamburg, the Hako Group operates production facilities in Germany, Poland and the US. Over 2,000 employees worldwide generate annual sales of some € 440 million in more than 60 countries.

Sweeping, Sweeping & vacuuming, scrubbing & drying: Hako develops Cleaning Technology that meets the highest demands in professional in- and outdoor cleaning – by setting new standards in terms of ergonomics, operating comfort, efficiency and future-oriented working. From providing hygienic cleanliness in small retail areas to ensuring dirt-free hangars: At Hako, we measure performance in 'square metres per hour' – and in 'your level of satisfaction per application'.

RITE - HITE

Rite-Hite is a world leader in the manufacture, sale, and service of loading dock equipment, industrial doors, safety barriers, HVLS fans, industrial curtain walls, and more - all designed to improve safety, security, productivity, energy savings, and environmental control.

Rite-Hite's longstanding reputation for safety, quality and innovation has been enhanced through the constant introduction of unique products for the industrial facility. Examples at the loading dock include the SAFE-T-LIP® hydraulic dock leveler; the Global Wheel-Lok™ wheel restraint; the Dok-Guardian; and the Eclipse™ loading dock shelter. Examples inside the facility include the FastTrax® and LiteSpeed high speed doors; the Revolution HVLS industrial fan, ZoneWorks Industrial Curtain Walls, In-Plant Safety Barriers, and the Safe-T-Signa.

GENUINE PARTS

Kobexindo Equipment has exclusive worldwide access to genuine spare parts. Using genuine spare parts is the only way to maintain optimum interaction between all components, ensuring maximum reliability and preserving value.

Only our manufacturer's genuine spare parts meet the high-performance requirements for all the equipment we offer. Using imitation parts can lead to serious accidents and expensive breakdowns.

SERVICE & MAINTENANCE CONTRACT

When you need an equipment repaired, you want it done quickly because down time impacts your productivity and profitability. You also want high quality service that stands the test of time, assuring reliable performance and operation. With growing locations across the archipelago, Kobexindo Equipment has service teams that handle repairs and service at your request.

Kobexindo-Maintenance-Agreement ensures that our customers receive exactly the kind of service that meets their individual requirements. This in turn certifies that the machines are always reliably maintained to ensure maximum machine availability. With individually adapted maintenance intervals, state of the art diagnostic technology and the know-how of our Service team, we can ensure the availability of your fleet while reducing downtime and repair costs.
