

***COMPANY PROFILE***

***CV.ELPACK MACHINERY***

Packaging & Cuztomize Machine Solutions

Elpack machinery Established in year 2017, with experience since 2008

Elpack Machinery help you decide the good solutions and choose correct alternative

We provide the best packaging machines for primary, secondary and end of packaging needs.

We offer solutions to solve your packaging needs.

- Project analysis
- Layout designing
- Integration system
- FAT
- Installation & commissioning
- Training
- After sales service support & spare parts

#### **Vision:**

With trust, honesty, integrity, Elpack Machinery is doing the best to achieve highest customer satisfaction with qualified products and service.

#### **Mission:**

To provide best quality machines accordance to customer requirement with best after sales service.

#### **Superiority:**

Technical background many of experiences in designs and manufacturing, best after sales service, high-class & advanced technology of machinery.

## COMPANY PROFILE

NAME : CV.EL-PACK MACHINERY  
SIUP : 503/0430/SIUP-M/35.07.122/2017  
TDP : 132534704972  
NPWP : 83.582.770.0-654.000  
SPPKP : S-468PKP/WPJ.12-KP/1103/2019

## HEAD OFFICE

JL. MELATI NO 125 KEPANJEN MALANG JAWA TIMUR- INDONESIA

## **Horizontal Flow Wrapper series**

Flow Wrapper is packaging machine for center seal bag type, suitable for wafer, soap, noodle, tissue, biscuit, candy etc.

## **Vertical-Form-Fill-Seal series**

Vertical-Form-Fill-Seal is packaging machine pillow bag type, suitable for all kinds of products. System motion Continuous or Intermittent.

## **Filler and Capper series**

Filler and Capper, machine filling-capping for bottle, jerry can. Application product suitable for, pasta, powder products

## **Doy Pouch series**

Doy Pouch is packaging machine specifically packed for doy pouch type, suitable for all kinds of products.

## **Multyline Sachet series**

Multyline Vertical is packaging machine pack format packing 4 side seal, application suitable for liquid, granule, powder products.

## **Horizontal Multyline Sachet 4SS series**

Multyline horizontal is packaging machine packed type 4 side seal, application suitable for : teeth brush, stick candy.

## **Cartoning series**

Cartoning machine solutions for different industries integration into your production line, stable performance and easy to operate. function.

Our cartoning machine can be divided into 2 types; horizontal cartoning machine and vertical cartoning machine.

Motion system 2 types ; Continous motion and Intermittent motion. System Closed ends flaps ; Tucking or applying glue.

## **Complete End-Of-Line Solutions**

We design End Of line custom solutions for integration into your production line, ranging from packing to cardboard cases, whatever the format of the product.

New generation of robotic case packer, equipped with servomotors to ensure smooth motion and maximum positional accuracy.

Version available with 2 axis robot or articulated arm robot according to the needs of each clients. The new pick up heads have sufficient flexibility to enable packing into cardboard cases

Our case packer support combination with sealer tape or shrink wrapper machine to cover all of customer possible needs

## **Paletizing Robot System**

Articulated-arm palletising robot systems, specially designed to customer specific applications.

These machines offer significant advantages in terms of radius of operation and useful working area. Easy layer edition from the screen

Its 4 and 6-axis models for different applications, and its speeds, make this palletiser a good end-of-line option to consider, both for its versatility and the undoubtedly appeal of its articulated movements.

## **Costumized solutions**

ELPACK can be suplied packaging equipment, costumized solution design and manufactured to specification : Case Elevator, Conveying system, Shuttle Car, Counting system, Feeding system, etc.

## **Experience**

2017-2018

Design Stick pack Multiline

Design Triangle Packaging machine with Straw

Design Conveyor Vacuum Printing

Horizontal flow wrapper

Rotary premade filling sealing

Doypack premade filling sealing

Chellophane Wrapping Machine

Filling Capping Machine

Conveyor

Rejector Bottle

Bread slicing Filling

Toast Bread Skin peeling Machine

## **Experience**

2019-2022

Design controlling Manufactured Weighing packaging machine

Design controlling Manufactured Cartoning machine

Design Controlling Manufactured Robotic case packer – Carton Sealer

Design Controlling Manufactured Robotic Palletizer

Stick Chocolate dipping machine

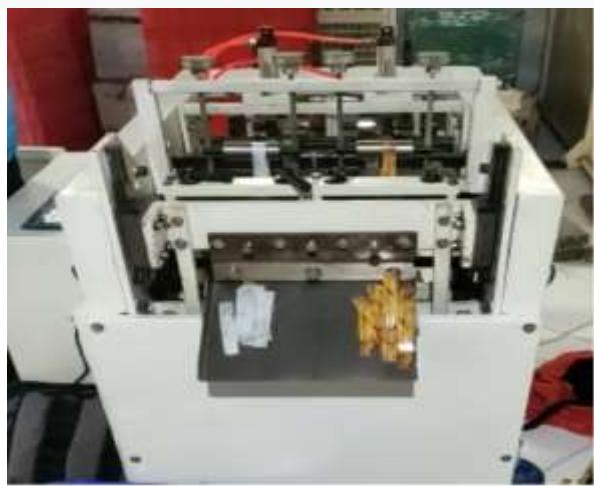

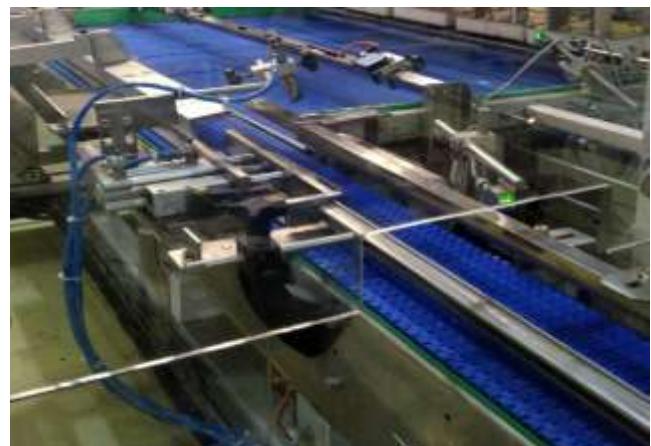

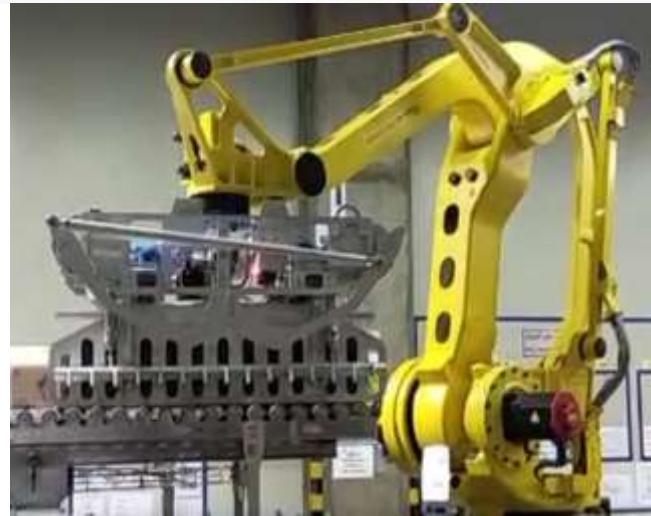

Cup filling sealing machine

Film cutting machine

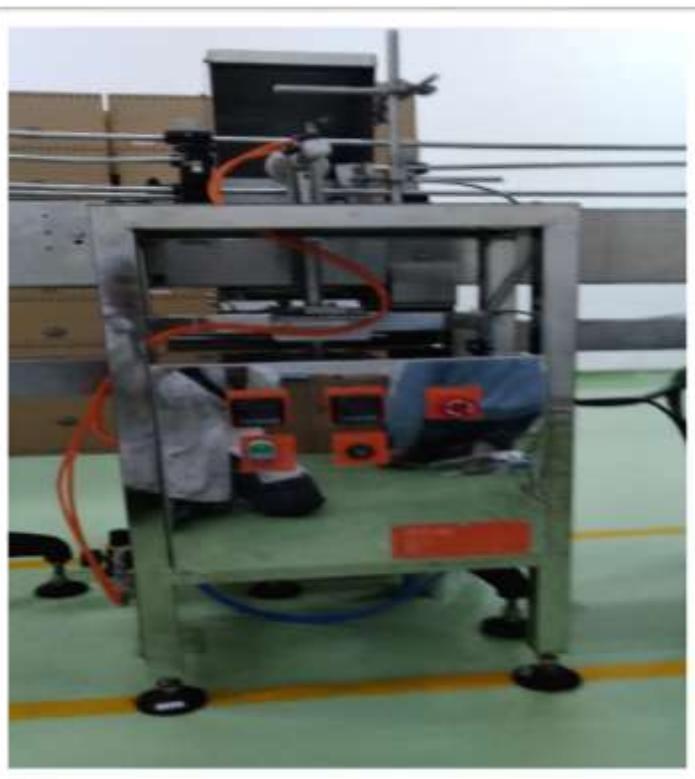

Auger Filler Line Machine

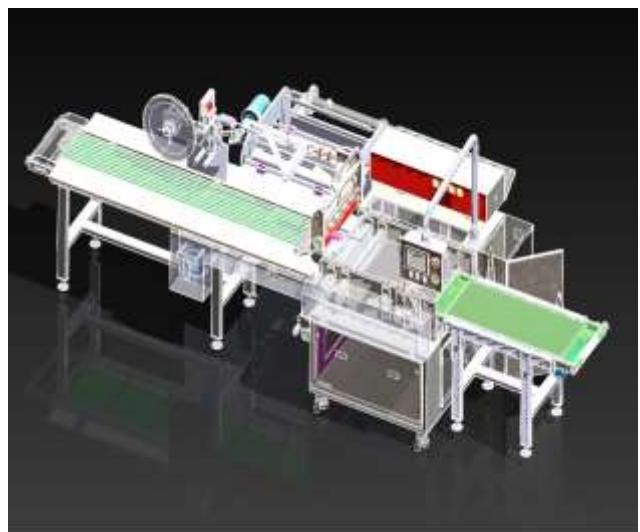

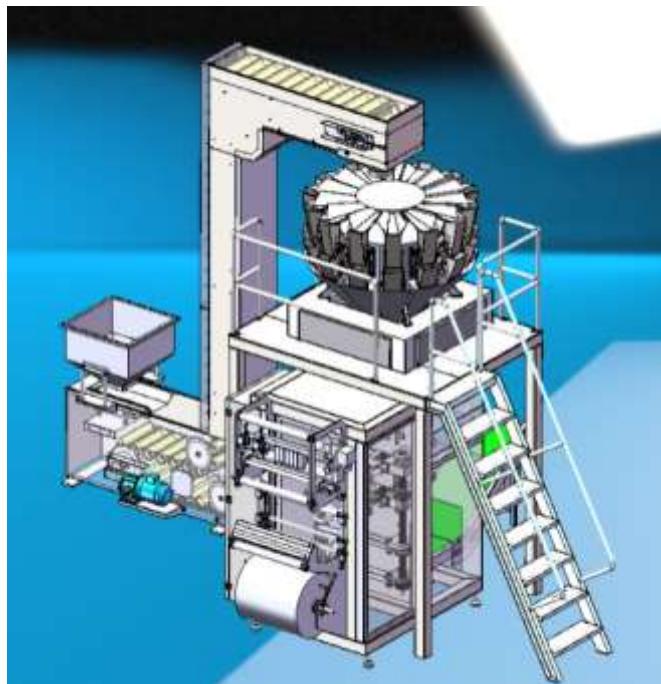

VFSF pillowpack machine

Cartoning Machine
