

A consultative approach to protective packaging

Company Overview

Since 1913, Signode has been the leading world wide provider of protective packaging systems, offering our customers low-cost solutions, high quality products and excellent service.

Signode, part of ITW's Industrial Packaging Group, is a global manufacturer of steel and plastic strapping, stretch film, pressure sensitive carton sealing tape and the application equipment and accessory products for each. Our products are used throughout the world in a broad range of industries to secure everything from cotton bales and newspapers to steel coils and corrugated cartons.

Since 2003, PT. Sigindo Kemas are Signode representative office for Indonesia market, taking responsible for marketing and services of Signode Packaging Products in Indonesia.

What makes us unique is our systems approach to serving customers' needs. In addition to providing our customers with the packaging materials and the application equipment for each, we also support our product applications with our own technical and engineering resources, operator equipment and safety training and maintenance and repair services.

Safety in our facilities and yours

At Signode, we are committed to providing our employees and yours with a safe, accident-free work environment. To accomplish this goal, we've instituted several comprehensive and innovative customer and employee safety programs. And we are continuously identifying new ways to improve our operating procedures and packaging equipment

Innovation

We believe that innovation is key to our success. Through a firm commitment to research and development, we have earned a reputation for being at the forefront of packaging innovation. We provide our customers with advanced solutions that increase production efficiency, improve load integrity and reduce operating costs. Over the years, we've continuously refined our existing products and created new ones to take advantage of evolving technologies and to meet our customers' ever-changing needs. That responsiveness has made Signode the industry leader in protective packaging systems.

Plastic strapping systems

Stretch wrapping systems

Strapping

Manufacturer of the industry's highest quality embossed, polypropylene and polyester strapping for use with seal or sealless hand tools and power application systems.

Film

Blown and cast film

Hand tools

A huge selection of manual, combination, pneumatic and battery-operated tools for any product or application.

Semiautomatic and automatic strapping machines

High-speed machines that feature jam-resistance technology, auto strap feeding and easy maintenance in a variety of chute sizes and head configurations.

Equipment

Automatic application systems with up to 300% film pre-stretch.

Turntable

A full line of semiautomatic and automatic turntable systems that can wrap up to 45 loads per hour.

Rotary arm

Rotary arm models in free standing and column-mounted designs for unlimited weight capacity that can wrap up to 40 loads per hour.

Rotary ring

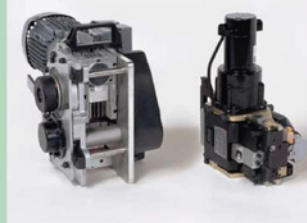

Rotary ring wrappers capable of wrapping up to 150 loads per hour with programmable start and stop for unlimited wrapping patterns. Available with or without conveyors.

Signode's MOD-710 and MHG both feature our modular head, quick-change technology consisting of separate feed and seal modules. These lightweight, compact modules

are easy to access and can be changed out quickly for routine maintenance. When switching to a spare module, downtime can be limited to a matter of minutes.

MOD-710 feed and seal modules

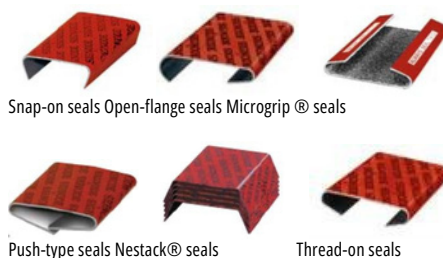

- Easy to operate
- Less downtime
- Fewer moving parts
- No belts, pulleys or adjustments

MHG feed and seal modules

Steel strapping systems

Strapping and seals For uncompromising quality and packaging effectiveness. Consistent high quality makes Signode steel strapping the first choice among packaging professionals worldwide.

Hand tools and automatic systems

The largest variety of manual and pneumatic hand tools, power strapping machines available.

Manual tensioners and sealers

Combination tools

Pneumatic tensioners and sealers

Accessories

Machine and hand tool service

At Sigindo Kemas, we support all our product applications with our own technical and engineering resources, operator training and maintenance and repair services.

The Signode System

Whether you require strapping, stretch film or tape, our sales, equipment service, customer service and engineering departments can help you design and implement the optimum protective packaging system for your application.
