History of Establishment

PT. MACHINDO INTI CEMERLANG was a private company, established in early 2011 and officially registered in mid 2012 and now has become one of the major players in indonesia, providing and supplying comprehensive ranges of industrial equipments to serve the markets needs.

Starting from mostly as a general trading company and serving many type of industries with huge ranges of products, we are now focusing on certain products and markets and we have become an authorized sole agent distributor, certified assembler, and stockiest for most of the famous brands within the scope. Our sources of goods are mostly coming from trusted developing countries, such as; Europe (Italy, Netherland, Belgium, France, Germany, and Spain); U.S.A, Asia (China, Japan, Korea, and India).

In this present day, our product are mostly related to Indonesia's major growing industries, such as; Automotive, Chemicals, Oil & Gas, Mining, Agriculture, Steel and Consumer products, Adapting with these industrial categories, we have divided our variety of products into three major scopes and they are: Fluids & materials Transfer Equipment; Health & Safety Equipment; and Mechanical & Civil engineering tools.

Integrity, commitment, Professionalism, and responsibility has always been as our key strengths on gaining clients trusts in the markets an has formed us a fast-growing-company in very short period of times.

It is our great future expectations to always improve our company in all aspect as to provide our clients with total solutions as well as contributing into the nation's industrial and economic growth.

Our Certificate

Our Products

Fluids & Materials Transfer Equipment

Fluids & Materials Transfer Equipment, which includes heavy industrial or hydraulic piping; all kinds of industrial hoses (rubber, PVC, Stainless Steel, Teflon, Pu, PP, Polyamide, and thermo plastic); Hydraulic or high pressure rubber hoses; Special hose for drilling purposes; All kind of hose end fittings in Carbon Steel and Stainless Steel materials; Water Oil Flow meter; Oil motor pump; and Nozzel.

Health & Safety Equipment which include body harness, safety working belt, safety helmet, fire blanket, safety glasses and goggles, safety ear plugs, safety mask, traffic cones, safety road reflective mirror,miners cap head lamp, safety sign.

Our Products

Health & Safety Equipment

Our Products Mechanical and Civil Engineering Tools

Mechanical & Civil tools which includes electric motor, lifting equipments (webbing sling, hand pallet and hand forklift), engine cylinder hone, drilling machine, bar bender, bar cutter, wood working machine, rock drill, jack hammer, cable crimping tools, welding cable, vice, PVC welder, taper & welding gauge, hack saw machine, cutting machine, oli bunner, hydraulic press, pipe bender, spot welding machine, gas cutting machine, bolt cutter & hand rivet, tube expander, gasket cutter, gasket opener, wire rope winch, cylinder boring machine, metal lathe, electric motor, air & hydraulic tools electricians tools.

Customer satisfaction is our priority, thus all incoming and outgoing goods would always be inspected according to our tight standards and procedures, without exclusions. This ensures that our customer would always receive the right products with the right quality.

Our Quality Assurance

Our end results of medium scale production, assembly process, and repair services are always guaranteed for its quality and precision, thanks to our well equipped workshop facilities, such as: bench drilling machine, Semi automatic lathe machine, TIG & MIG welding machine, automatic turning table for welding, marking machine, hose crimping machine up to 8" diameter, hose swaging machine up to 12" diameter, hose cutting machine, hose crimping machine up to 2" diameter, hydro-static manual test pump, high pressure hydro-static test bench, and other supportive technical tool with high precision.

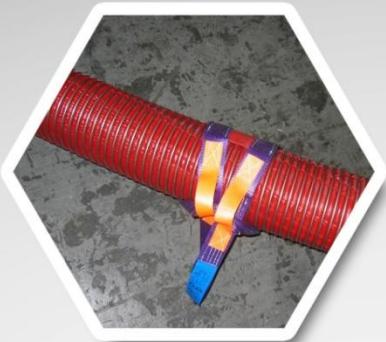

Our
Productions
& Repairs Capacity

The Markets We Served & Implementations

**Flextraco
Composite Hose**

**Compotec
Industrial Hose**

**IVG Montana 20
Implemented during
at Road Asphalting**

**Marutek Hydraulic
Hose Implemented
at Automotive Industri**

**Transflex OSD 20 Bar
Implemented when
Loading & UnLoading**

**Tokyoflex Flexible metal
Hose Implemented
at Candy Factory**

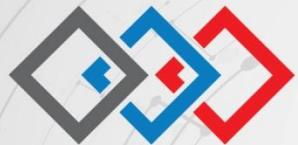

**Be Safe Body hardness
in application**

**Be Safe Rain Coat
in application**

With sincere dedications, efforts and commitments, we have successfully gained trusts and served some major industries nation-wide and keep expanding.
