

ENMAX RECIPROCATING COMPRESSORS

UNSURPASSED RELIABILITY

STANDARD LINE OF ENMAX COMPRESSORS

MODEL	HP	L/Min	PRESSURE	TANKSIZE	L x W x H (IN Inches)	WEIGHT
ENX 202	1/2	108	8 Bar	50 Liter	940 x 330 x 700	52 Kg
ENX 211	1	150	8 Bar	70 Liter	100 x 440 x 780	60 Kg
ENX 212	2	205	8 Bar	90 Liter	110 x 450 x 780	62 Kg
ENX 213	3	480	8 Bar	120 Liter	1250 x 450 x 840	110 Kg
ENX 215	5	879	8 Bar	160 Liter	1400 x 520 x 980	168 Kg
ENX 217	7,5	1145	8 Bar	240 Liter	1450 x 650 x 1150	230 Kg
ENX 2110	10	1536	8 Bar	300 Liter	1750 x 650 x 1200	250 Kg
ENX 2115	15	2352	8 Bar	300 Liter	1650 x 750 x 1480	560 Kg
ENX 2120	20	3100	8 Bar	400 Liter	1650 x 750 x 1480	560 Kg

**Different combinations available

MODEL	HP	L/Min	PRESSURE	TANKSIZE	L x W x H (IN Inches)	WEIGHT
ENX 313	3	225	16 Bar	237 Liter	1450 x 55 x 1100	225 Kg
ENX 315	5	406	16 Bar	305 Liter	1450 x 640 x 1150	260 Kg
ENX 317	7,5	606	16 Bar	352 Liter	2230 x 800 x 1400	515 Kg

CUSTOMIZED SOLUTIONS

We understand that each customer is different and requires different solutions. We have the capability to custom design and build a compressed air system for any application. Our experienced compressed air system experts work hand-in-hand with you to deliver a solution that is right for your needs.

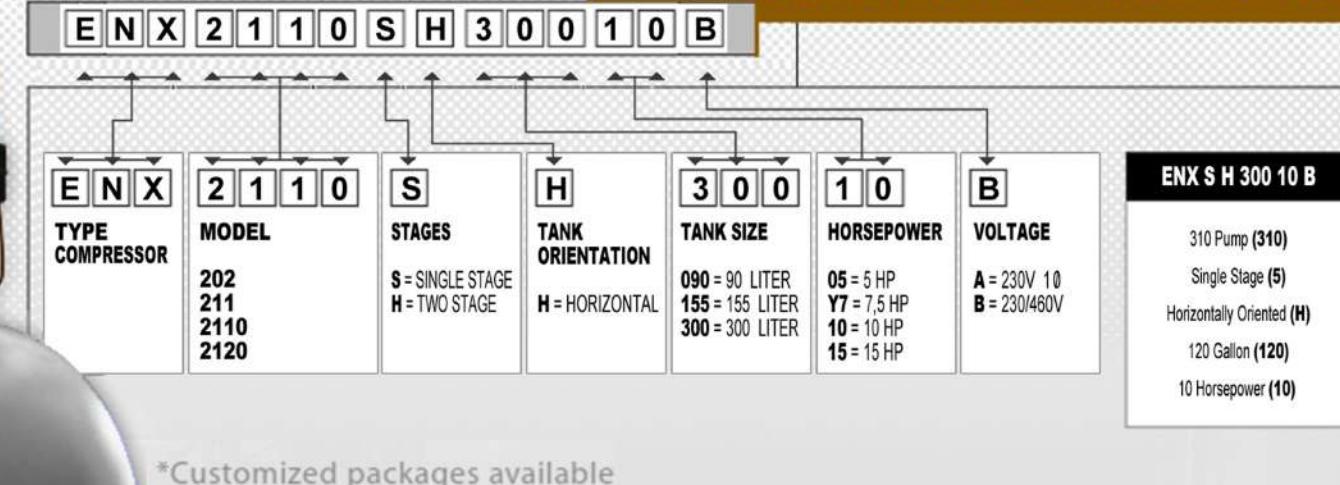

SERVICE & SUPPORT

We know that the initial sale is just the first step in a long relationship with our customers. Being able to provide first rate support for your compressed air system is of paramount importance. From highly experienced technical support staff available around the clock, a very large and complete spare parts inventory for immediate delivery, to 24 hour on-call technicians, our experts are there when you need them. We make sure that our customers have all the support they need to keep their equipment and their operation up and running.

- Large solid cast iron crank case provides excellent heat sink and substantial oil reservoir
- Counter-weighted, precision machined crankshaft provides outstanding balance, reducing wear and extending service life.

SELECTING YOUR MODEL NUMBER

*Customized packages available

PUMP FEATURES

SMARTER DESIGN, BETTER COMPONENTS, LONGER LIFE.

- Extra deep cooling fins for highly efficient heat dissipation
- Oversized bearings for low temperature & low vibration providing an exceptionally long L10 life.
- Large one-piece valve design provides maximum air flow and fewer failure points.
- Balanced cast iron flywheel with built-in fan for minimal vibration and improved cooling performance.
- One piece aluminum alloy connecting rods for high strength, light weight and fewer stress points.
