

# PT EVOTEK GLOBAL PRIMA COMPANY PROFILE

[www.evotek-global.com](http://www.evotek-global.com)

Evotek Global Prima began as company supplying and servicing a wide range of quality products from auto electrical parts, electrical harness manufacture and workshop equipment to many major national and international mining, oil & gas industries in Indonesia.

We are also specialized in LED lighting system. Ellight's LED product line includes industrial LED light fittings suitable for use in indoor and outdoor spaces – IP66, such as in Warehouse, Sport facilities, Apron Lights, Port, Street Lights, Agricultural Buildings and all types of Transport systems.

Our team consists of a highly experienced and talented group of professionals with extensive years of experience in their expertise. We are committed to high standards of our service and continuous productivity as well as to safety requirements.

# VISION

As one of the leading and reliable company in the electrical engineering and industrial LED lighting system with strong focus in delivering innovation, solutions and services.

We apply high standard on the quality of the products, deliver sustainable innovation, offer solutions to clients to achieve their production target and pay high attention on after sale services.

# MISSION

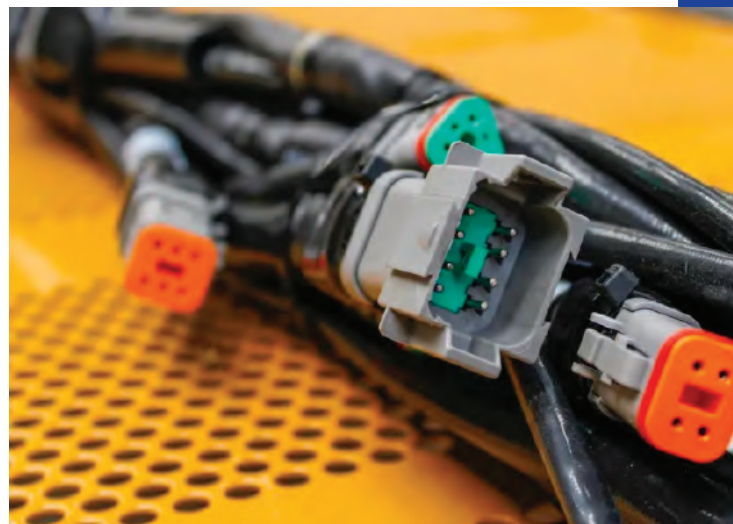

**Evotek Lighting System** is committed to developing innovative LED technologies that are not only highly beneficial for the environment, but also provide our clients with a long term, maintenance free solution that has a lower lifetime cost whilst improving productivity. Our product ranges across most industries, from Mining, Industrial, Transportation to Architectural and Commercial.

**Evotek Controlling System** is designed and manufactured with high standard to prevent accident & engine break down and provides maintenance solution to the electrical system as safety standard for the heavy equipment.

**Evotek Electrical Parts & Accessories** is an automotive cable product, connectors, tubing sleeve and many accessories used in heavy equipment. The durability and resilience of our products and accessories keep client's operation running safe, productive and cost effective.
