manufacturer integrating the design, manufacture and the marketing sales of liquid plastic packaging bag

production line includes valve moulding, film blowing, laminating, and bag-making department. Factory covers 16,000 square meters, invests liquid plastic packaging bags, especially the aseptic bag and bag in box products, are new energy saving and environmental production material which widely applied to the increasingly prosperous agricultural by-product at home and abroad. Our bag's volume ranges from 1L to 220L and generally be used in the cooking oil, pure water, concentrated juice, jam, wine, chemical reagents etc. In addition, the consultation service of outside packaging box, cartons, bag in box filling machine, sterilization equipments also can be provided.

The workshop environment is strictly designed according to the GMP standard. imported products with excellent performance in oxygen transmission rate and tightness. S&R Test Central Laboratory and SGS-CSTC Chemical Laboratory. That proved the products in accordance with relevant international standards, and are allowed to export to any other countries

Bag In Box

Bag in box volumes from 1L to 25L with different Spouts or valves has widely packaging types. It has simple transportation style and final packagings enter into the consume areas

Aseptic bag

1L-220L aseptic bags are used to the packaging area of concentrate juice and jam food industries, matching with professional aseptic filling machine, it keeps food fresh with original flavor in a long time.

BIB

There are various of spouts for BIB bags from 1-220 Liters to meet different productions requirements.

BIB advantages

Advantages of BIB bags

1. Reduce package cost and transportation cost
2. Lower oxidation reaction
3. Quality guarantee period up to 24 months before open
4. Extend quality guarantee period to 9 weeks after open
5. The Weight is 38% less than the other type packaging
6. The filling rate is up to 98%
7. Outer carton is available for advertisement

Applications

FOOD PRODUCTS	INDUSTRIAL/CHEMICALS
WINE	LUBE OILS
MILK	HERBS LIQUID
WATER	HAND SOAP
SUGAR SYRUP	HAIR SHAMPOOS
EDIBLE OIL	LATEX
CONCENTRATED JUICE	PAINT MATERIALS
JAM	PAPER SLURRY
EGG-LIQUID	GLUE

Try the best,
be the best!
