

# JOTAM PRODUCT

## **Our Sector Industries :**

Pharmaceutical Food and Beverages - Herbal - Manufacturing - Automotive - Electronic - Chemical - Plastic - Masterbatch - Packaging - Furniture - Metal - Textile - Glass - Jewelry - Logistic - Airport

## **Our Products :**

Pharmaceutical & Food Metal Detector • Security Metal Detector • Vacuum Lifting Vacuum Conveyor • Vacuum Pump • Suction Cup • Manipulator • Handling Hoist Table Lifter • Sifter • Flexible Connection • Blower • Loss-in-weight Feeder • Explosion Proof Liquid Filling Machine • Explosion Proof Scale • Actuator • Self Cleaning Filter • Suction Pad • Vacuum Transfer • Automatic Packaging • Valve •

**TAWI**

**MARCO**

**Kubota**

**VALBIA**

**JSW**  
Extruder

## Multifunctional Lifter

Improve ergonomic, create better safety and healthy working environment. Lifts various types of loads: box, bag, roll, bar, pail, electronic, board, cheese block, rubber bale, etc.

**Boxes**

**Foods**

**Bags**

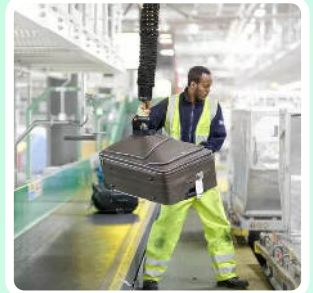

**Drums**

**Sheets**

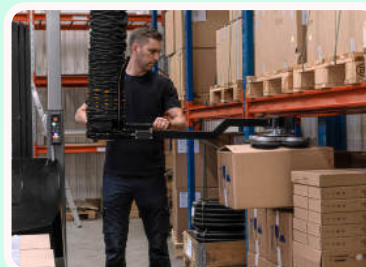

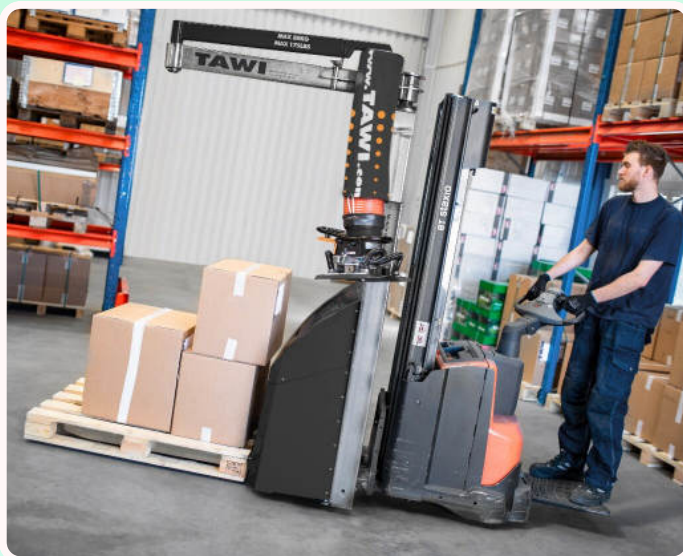

**Components**

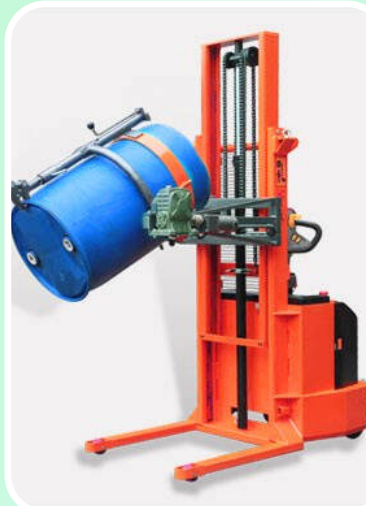

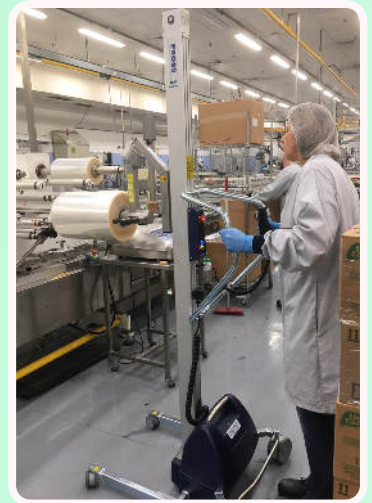

## Mobile Order Picker

Fully mobile, simply use with forklift or stacker and drive wherever you need to pick up goods in the warehouse.

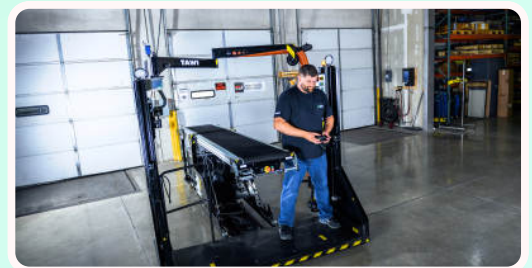

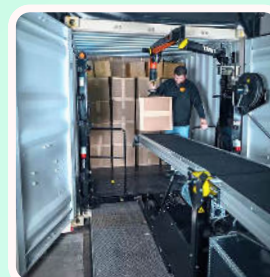

## Mobile Lifting Trolleys

Lift, move, tilt and rotate goods , with optimal precision and minimal effort. Wide selection of tools for various types of loads such as reels, drums, crates, boxes, etc.

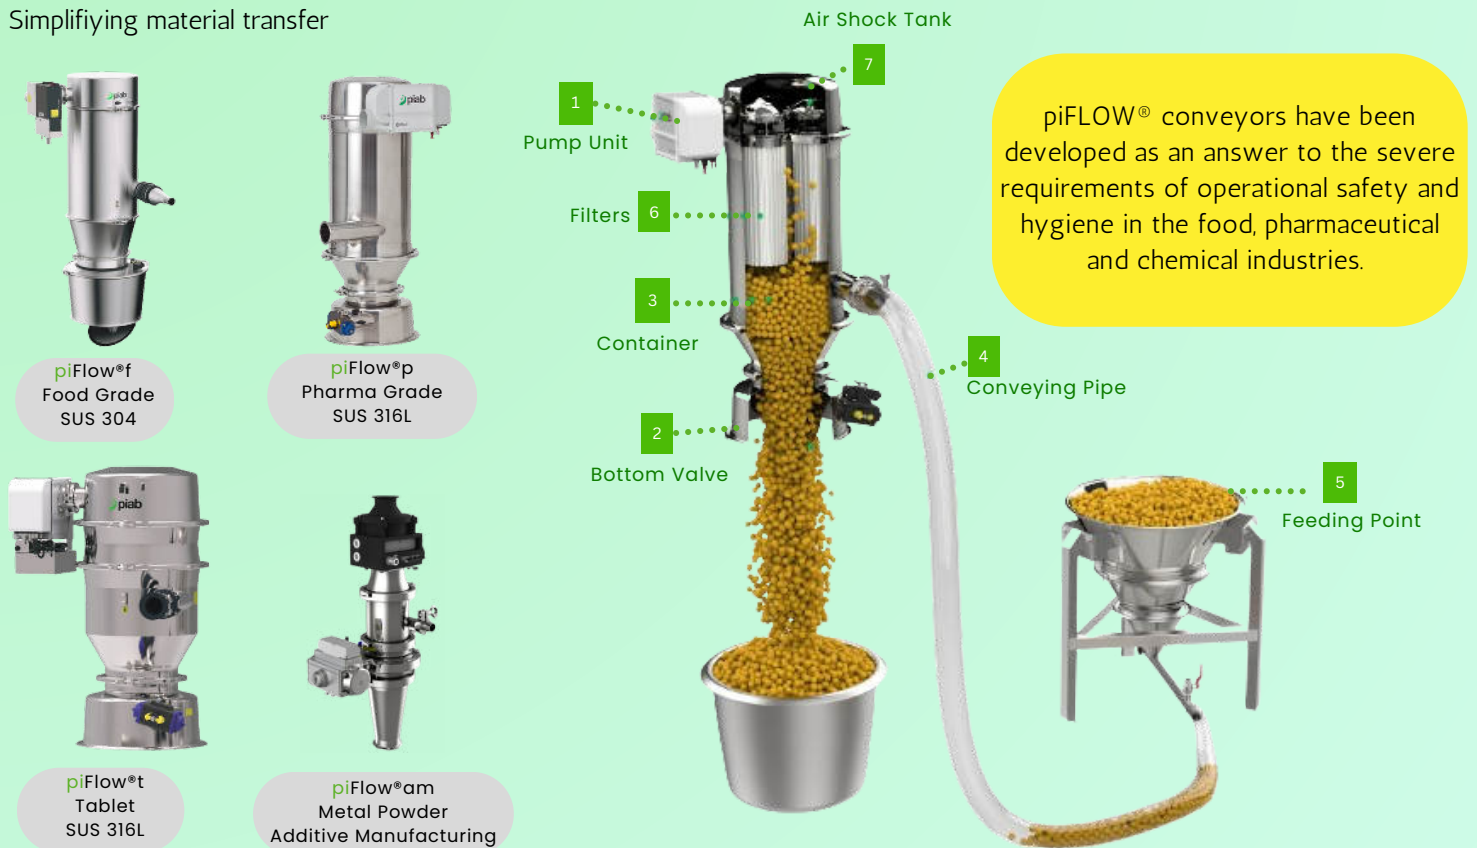

## Container Unloader

Unload containers and trailers fast and effortless with vacuum lifter, conveniently mounted on the conveyor. Lift up to 40 kg, suck any side, turn it 360 degree and release as required.

## piFLOW® Vacuum Conveying

Simplifying material transfer

## Vacuum pumps and ejector

Improve your productivity and energy efficiency

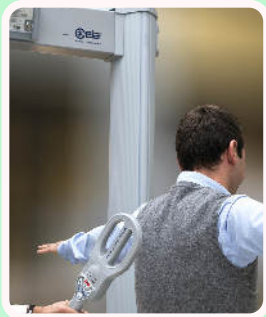

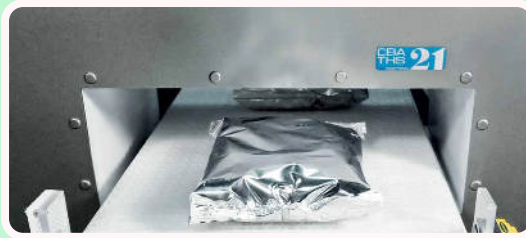

## Suction cups and soft grippers

With many variants, reliability, durability will be very helpful when used in many applications

## Metal Detector

High sensitivity, able to detect metal contaminants in product. High immunity to external interferences (vibration, electromagnetic). Comply with FDA title 21 CFR part 210, 211 and 11 (data security, integrity and traceability). Body are made of AISI316.

FREE-FALL  
(Bulk Material)

CONVEYOR

PIPELINE  
(Liquid)

SECURITY /  
LOST PREVENTION

PHARMACEUTICAL  
(Tablet, Capsule, Candy)

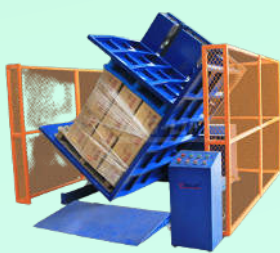

HANDHELD

## Lift Table

Scissor lift with high level safety design features and reliable components used to increase working efficiency and ergonomic aspect in various industries.

Lift and Tilt

Pallet Exchanger

Pneumatic Level  
Loader

Spring Level Loader

Mobile Electric

## Sieving and Filtration Solution

Sieve, separate and filter to achieve high-quality products by ensuring the powders / granules / liquids are free from contamination and foreign materials.

Vibrating Sifter

Tumbler Sifter

Linear Motion Sifter

Centrifugal Sifter

Vacuum Sifter

Inline Sifter

Liquid Auto Cleaning Filter

## Loss-in-weight Feeder & Measuring Control Systems

For excellent quality of the final product, ingredients dosing require maximum accuracy. Choice of feeders ensure best suited to particular material used so that reliable, accuracy and consistent continuous pouring is ensured at any time.

Negative Angle Hopper-Feeder

Flexible Wall Feeder

Explosion Proof Liquid Filling Machine

Explosion Proof Scale

Liquid Feeder

Micro Feeder

Belt Feeder

Pellet Screening

## Extruder

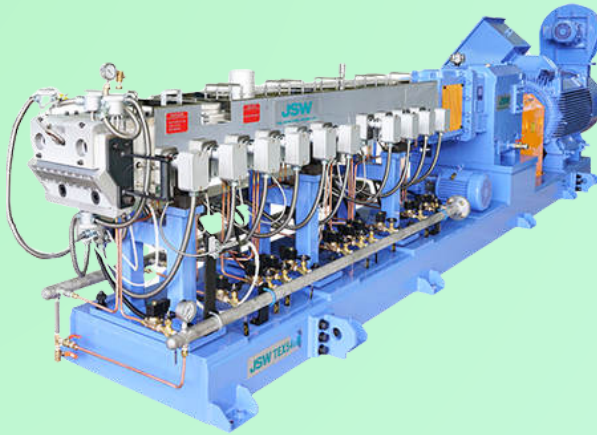

Masterbatch

Polymer Alloy

GF Compound

General Compound

Material Recycle

Coloring

Filler Compound

Polyolefin Compound

Engineering Plastics

High torque combine with high quality screw and barrel material provide high capacity at lower polymer temperature.

Shorter barrel L/D create more and precise temperature control zone, result better quality and physical properties.

## Deduster – Polisher

Tablet deduster and capsule polisher enable to perform both elevating and dedusting process simultaneously at high speed.

Upway Deduster

Capsule Polisher

Horizontal Capsule Polisher

Tablet Punch Polisher

Punch polisher polish dull and discolored punches to micro-fine and high quality finishing with natural or synthetic media.

## Flexible Connection

Custom design • Air tight • Dust tight • Abrasion resistant • High tear resistant • Oil and grease resistant • Food safety certified FDA, EU • Halal compliant material.

Inflatable Bag Clamp Connection

3A Clamp Connection

Weighing Bellow Connection

## Vacuum Pump & Blower

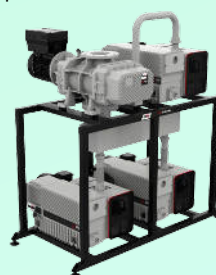

By incorporate technology customized to meet specific demands that can help the production process and make it safer, more effective and innovative, our vacuum pumps, vacuum blowers and compressors can be used in various industrial sectors as the best vacuum solution for every need to ensure the best performance.

OIL-FREE ROTARY VANE VACUUM PUMPS

LUBRICATED ROTARY VACUUM PUMPS

LOBE PUMPS

BLOWERS

## Electric, Pneumatic Actuators and Automated Valves

Provide suitable actuator and valve according to different application

High Performance  
Butterfly Valves

Electrically  
Actuated Valve

Trunnion Metal  
Seated Ball Valve

Pneumatically  
Actuated Valve

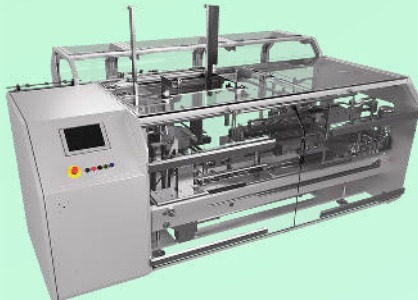

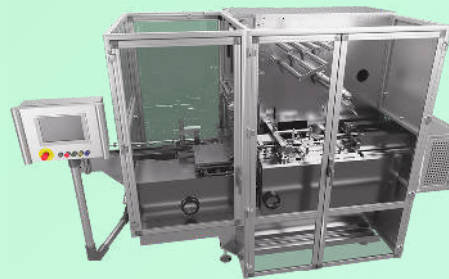

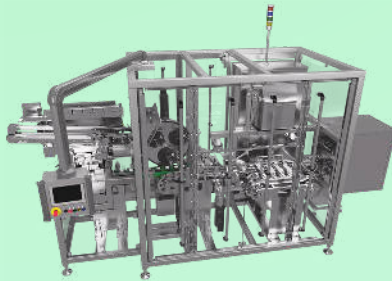

Butterfly Double Plate  
Check Valve

Electric Motor  
Driving Choke Valve

## Automatic Packaging Machine

Partner for end of line packaging equipment that meets your production expectations. Provide from a single machine to turnkey solutions.

## Cheese Processing Machine

Offering whole complete process equipment for cheese manufacture to satisfy entry-level up to mature one in retail and food service. Equipment such as stand-alone machine, complete production, capacity upgrade, used and refurbished machine.

Individually Wrap Slices

Slice on Slice Casting Lines

Automatic Continuous Shredding
