Meeting Today's Diverse Application Challenges with Unique World Class Industrial Chain Products and Solutions

With more than 110 years of experience in the manufacture and application of industrial chains behind us, our company is uniquely positioned to assist customers in solving a wide variety of problems across nearly any industrial application. Inside our own factories we have been evolving and utilizing the latest in manufacturing technologies and quality standards to assure customer satisfaction and enhanced product value.

On November 1, 2021, our new shareholder, Rising Japan Equity, began the integration of our company with their existing chain properties forming a larger, stronger, global industrial chain group. The emerging entity will become a full-service Industrial chain manufacturing and sales company offering a wide range of products and services backed by an experienced team of professional engineers and application specialists that we believe are unmatched by anyone else.

From February 1, 2022 we will become ZEXUS CHAIN Co., Ltd. The ZEXUS chain brand is derived from three words that exhibit the pride we have in our manufacturing base and home country of Japan (ZIPANGU), the passion we have for the industrial chain business (ZEAL) and desire to engage with customers and business partners to contribute to the advancement of society by providing advanced sustainable solutions (NEXUS).

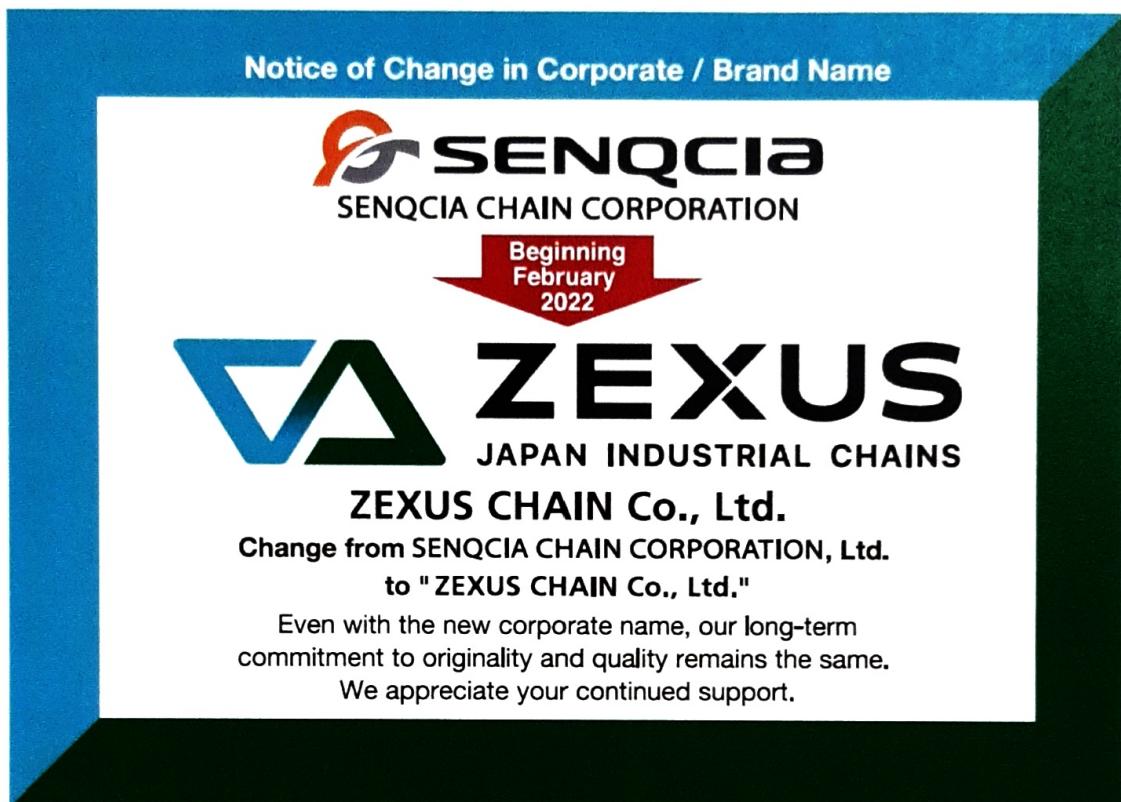

We drive our business to demonstrate our values and spirit represented in our brand ZEXUS.

Thank you for visiting our home page and we are looking forward to the opportunity to service your industrial chain needs.
