SPECIALIZED CLEANING SOLUTIONS

for every aspect of Clean

www.kawanlama.com

NILFISK – WITH YOU ALL THE WAY

NILFISK

1906 – TODAY Since Nilfisk was founded, we have been determined to meet these demands with products and services of the highest quality worldwide. As a result business, public institutions and private households all over the world continue to rely on Nilfisk to keep their facilities safe, their office environments productive and their homes clean.

As the leading solution provider company, **Kawan Lama Solution**, a member of **Kawan Lama Group** in partnership with Nilfisk for more than 10 years in Indonesia. We provide one of the world's leading manufacturers of professional cleaning equipment, more than offering the products but also bringing value to our customers. And now, we are bringing you **The Nilfisk Experience Store** in **Living World, Alam Sutera**, to give you all experience and information about cleaning solutions in every Line of Business

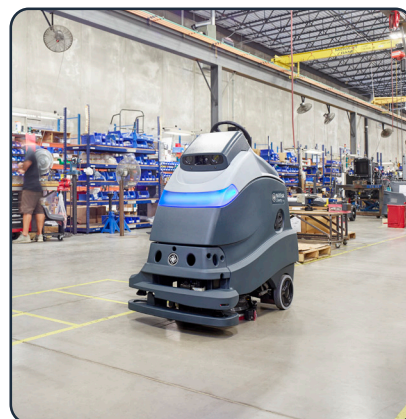

SUSTAINABLE CLEANING

At Nilfisk, we believe that one of the key drivers for sustainable cleaning is achieving more with less. Less energy, less water and less detergent. This will reduce cost for you as our customer whilst simultaneously improving our environmental footprint

MAKING YOUR BUSINESS SMARTER

Today, new technologies are radically changing industries, and how we clean in the years to come will be different from how we clean today. We have dedicated engineers and product developers all over the world, on creating innovative cleaning technologies and solution, ensuring that we meet your cleaning needs and provide the best possible quality of clean - both today and tomorrow.

WHY CHOOSE NILFISK BY KAWAN LAMA SOLUTION

NILFISK IS ACCREDITED WITH ISO 14001-2015 AND ISO 9001-2015

This is to certify that the management system of:
Nilfisk A/S
Main Site: International L. 2001 Branding, Denmark
Charter of Commerce: 4237213
The system is certified according to the requirements of:
ISO 14001:2015
The management system is applicable to:
Development, sourcing, manufacturing, distribution, servicing and marketing of vacuum cleaners, high pressure washers, floor care, spare parts and accessories.

OVERVIEW ACCESSORIES - HIGH PRESSURE CLEANER

Ergo System Coupling

Allows to connect hose to the machine and uses a quick coupling system to reduce time

High Pressure Male & Female Coupling

Allows to connect hose to the machine and uses a quick coupling system to reduce time

Hose

Used for transferring fluids in high-pressure water that can convey pressurized jets of water for power washing surfaces

Hose and Connection

Used for transferring fluids in high-pressure water that can convey pressurized jets of water for power washing surfaces

Hose Reels

Support the hose for cleaning

Nozzle

High pressure jet sprayer models

Lance

Handle that used to spray and clean the focused area of surface

Injector & Foam Sprayer

Attached to pressure washer and spray foam to support jet cleaning and removing debris faster

Filter Pressure Washer

Special cartridges filter suitable to work at high operating pressure

Spray Gun

Used to control water aim and pressure to get surfaces clean fast

Drain & Pipe Cleaning

Used to clean pipe and drainage that have clogged dirt and other debris

Liquid Sprayer

Water spray and used for high pressure cleaning

DENSIN C - 110E / C-170E / C-200E / C-250E

Pressure and water volume will create a bigger cleaning impact resulting a faster and cleaner outcome.

8 HOURS
OPERATION NON-STOP

SPECIAL APPLICATION HIGH PRESSURE CLEANER

NILFISK

These Poseidon and Neptune series are made to fulfill special cleaning & environmental requirements.

**85°C
INPUT**

MC 7P - 195 / 1280 FA

- Low rpm motor (1450rpm)
- 4 ceramic piston pump with 85°C Inlet temperature
- Flow activated control system
- Tough and sturdy design
- Easy accessibility to pump, optional service concept

**ELECTRIC HEATED &
FREE POLLUTION**

MH5M - 180 / 800 PA E24 EU

- Low rpm motor (1450rpm)
- Quick service concept
- Easy to use control panel
- Ergo system accessories
- 5m electric cable

PETROL ENGINE

MC3C - 180 / 750 PET

- Robust, long lasting pump
- Vibration - Isolation technology
- Ergo quick - coupling system
- Low pressure detergent injector

DIESEL ENGINE

MH5M - 200 / 1000 DE

- Electrical starting system
- Full ceramic piston pump
- Strong and robust steel frame and roll bar for protection

**8 HOURS
OPERATION NON-STOP**

MC 9P-350/1260 50HZ

- Two-sided interface setup
- Anti-corrosive steel frame design
- A viewable glass oil reservoir
- CE certified according to EN standard: 1829-1

**8 HOURS
OPERATION NON-STOP**

MC 10P-500/1800 50HZ

- A protected water inlet
- Color-coded touch points
- Anti-corrosive steel frame design
- Large four-wheel setup for easy rollover
- CE certified according to EN standard: 1829-1

OVERVIEW ACCESSORIES - VACUUM CLEANER

Nozzle

Upholstery nozzle, round brush, crevice nozzle

Floor Nozzles

Combination and multi surface nozzles

Electro Nozzles

Made for backpack vacuum products

Dust Bag Canvas

Made with durable synthetic material

Dust Bag Paper

Filtration single use dust paper bag with high filtration

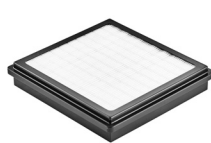

Filter

Mounted on vacuum cleaners and trap all forms of dust and even the finest particles

Wet & Dry Filter

Stopping fine particles, dust and allergens (Wet/dry) from recirculation during vacuuming as it exits the vacuum's exhaust port

HEPA Filter

Installed in systems to provide more effective filtration

Tubes

Extension that attach to a compatible vacuum hose to extend the reach to clean overhead fixtures and high shelves or ledges

Hose

Used to move material from one place to another such as vacuuming dust from surface into the vacuum
Combination and multi surface nozzles

Dry dust left on the floor, tools, equipment, wall, corner or even hidden places may create health and environmental issues and Nilfisk's vacuum cleaners is the excellent solution to your daily cleaning needs.

Nilfisk offers vast range of filters including HEPA filters, ideal for offices, hospitals and hotels.

SWEEPER

SCRUBBER

ADD-ONS

OVERVIEW ACCESSORIES - SWEEPER

Main Broom Natural

Excellent material for dust control and sweeping fine debris

Main Broom PPL

Superior pickup of sand, gravel and litter. Less aggressive on the floor compared to the PPL + STEEL

Main Broom Steel + PPL

Popular for use to sweep both indoors and outdoors

Side Broom

To sweep the dirt and debris away from the kerbs, walls, pallets, etc

Main Broom

Effective cleaning action to pickup debris (industry)

Headlight

Popular for use to sweep both indoors and outdoors

Flashing Beacon

Draws attention to the machine in its working environment

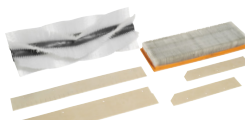

Side Broom Protection

Protect the side brooms of the machine

On-Board Charger

For both wet and gel batteries

Carpet Kit

Non Marking skirts, natural fibre main and side brooms, pre-filters

DustGuard™ Kit

To control air borne dust on the side broom

Front Corner Guards

Protect the front of the machine

SWEeper WALK BEHIND

NILFISK

Nilfisk walk-behind sweeper offers an impressive performance in outdoor spaces as well as indoor floors. Compared to a manual broom, it will pick up and remove dust, dirt, sand, nails, bolts, cigarettes, etc. up to 6 times faster.

A Sweeper is a mechanical system that picks up rubbish and that, unlike manual sweeping, retains the dust. Nilfisk has designed it's sweeper based on two principles: first, according to the type of rubbish to be swept up (large waste, light materials or heavy dust), and then by checking the quality of the air returned into the environment. This is why nilfisk has high quality vacuuming and filtration system.

BATTERY

SCRUBBER DRYER WALK BEHIND

NILFISK

The Nilfisk range of automatic cleaning machines allow you to clean up your area efficiently. We have four priorities when developing the high output machines : excellent cleaning result, ease of use, maximum lifespan, low maintenance and service costs. Our machine clean your floor with the utmost care, efficiently and quickly.

Electric Scrubber Model

**BRUSH
WIDTH
31 CM**

SCRUBBER SC100 E

- Easy, fast and productive cleaning
- Effective for narrow space
- Applicable for hard floor and carpet cleaning

**AREA WIDTH
620M² / H**

**BRUSH
WIDTH
43 CM**

SCRUBBER SC401 43E

- Compact design easy to manoeuvre
- Ergonomic handle with touchpoints,
- OneTouch™ button
- Nilfisk SilentTech™ technology

**AREA WIDTH
1720M² / H**

**BRUSH
WIDTH
53 CM**

SCRUBBER SC450 E

- The low noise level
- Large recovery tank and removable lid
- Fast and hygienic

**AREA WIDTH
2120M² / H**

Battery Scrubber Model

**BRUSH
WIDTH
53 CM**

SCRUBBER SC430 B

- OneTouch™ button
- 4 km/hour and reduced pushing force ensure effective and intuitive operation
- Integrated solution tank for high capacity

**AREA WIDTH
2120M² / H**

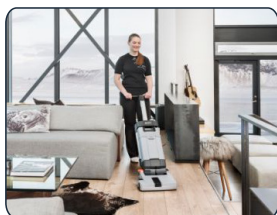

**BRUSH
WIDTH
53 CM**

SCRUBBER SC530 B

- OneTouch™ button
- Ergonomic handle with two safety switches for trouble free and easy operation
- 61 liter tank capacity

**AREA WIDTH
2120M² / H**

SC2000 - RIDE ON SCRUBBER

- OneTouch™ button and the intuitive display
- Smartflow™ technology
- 70 liter tank allowing up to 2.5 hours cleaning time

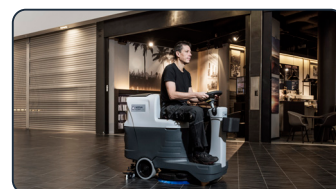

SC3500 - RIDE ON SCRUBBER

- OneTouch™ button and increased brush pressure (35/50 kg)
- Up to 3 hours battery run time
- 110 liter tank with water level indicator

SC4000 860D HP - RIDE ON SCRUBBER

- OneTouch™ button and the intuitive display
- Ecoflex™ prepared: green, flexible
- Smart flow adjust suction flow according to travel speed

OVERVIEW ACCESSORIES - SCRUBBER

Cylindrical Brush

For uneven floors like ceramics anti-slip floors

Brush

Used on uneven floors when debris collection is not needed

Pad Holder

Used for pads

Pads

Black & Brown: Heavy-duty
Green & Blue: Medium-duty
Red: Light-duty

Splash Guard Kit

Prevents water from splashing on deck. Enables squeegee to recollect water

Kit, Vacuum Motor

Allow squeegee better suction.

Kit, Grammer Seat

Better comfort to the operator

Onboard Filling Hose

Makes it easy to refill the machine everywhere

Blades

Various squeegee blade materials are available depending on the application and duty

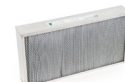

Onboard Charger

Ecoflex Chemical Kit

Ecoflex allow full control of the detergent to be used, flexibility in the detergent selection

Panel Filter

Control the dust in the hopper

Scrub Brush

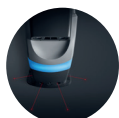

For scrub to give you the best possible cleaning performance

FREEDOM TO DO BETTER

IOT IMPLEMENTATION

IOT IMPLEMENTATION

Technologies Enhancement

- Doesn't require constant WiFi or data connection to operate autonomously
- Mandatory connectivity for remote support / software upgrade
- Basic remote or machine updates, doesn't require a Smart Phone
- Doesn't interfere with building systems, such as door sensors, anti theft tags, etc.
- Sensors have carefully selected and tested against colors, material types, and gloss

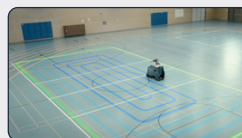

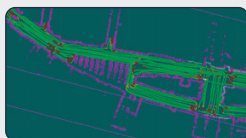

FLEXIBILITY

Ready For Anything

CopyCat™ mode replicates a designated cleaning path with exact precision

* Liberty SC50 precisely learns exactly how you want to clean.

Fill-in mode lets you implement autonomous cleaning the fastest way possible – no pre-mapping or programming required.

* Easy and fast to train a new cleaning area up to 99.5% of cleaning coverage

Manual mode gives you complete control over movement and cleaning like a normal scrubber.

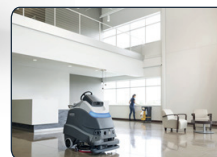

SAFETY FEATURES

High Level Feature

- Separate system independent of the mapping, obstacle system and path planning
- Overrides autonomous system and immediately stop
- Dual safety sensors provide 360-degree coverage around
- Drop-off sensors to detect drop offs things around

AIR BLOWER & CARPET EXTRACTOR

NILFISK

Nilfisk air blowers and carpet extractors are highly efficient cleaning tools, designed to make cleaning tasks easier and more effective. With advanced technology, these products are able to quickly and effectively remove dirt and debris from carpets. The carpet extractor uses a low-foam cleaning chemical to spray water onto the fabric or carpet, and then vacuum it up, leaving it clean and dry in a shorter time compared to traditional methods. The air blower, on the other hand offers an ideal solution for drying large carpets and floors, as well as the fast moving of air from toilets in hotels, schools, offices and similar locations, which reduces the risk of slips and falls. These tools are also very user-friendly, making them a smart investment for anyone looking for efficient and effective cleaning solutions within the residential/commercial cleaning environments.

AIR BLOWER BN3

- Injection molded fan for quiet operation
- Adjustable handle
- Light weight with wheels

Code/Type	10078429	
Product	AIR BLOWER BN3	
Power (W)	250

HALL

FLOOR CARE CALCULATION AREA

Description

👤 : Individuals needed if done manually

MANUAL VS CLEANING EQUIPMENT

MANUAL CLEANING
NEED 10 HOURS CLEANING

SC2000
CLEANING EQUIPMENT
ONLY 1.5 HOURS CLEANING

SIMULATION:

For cleaning a 20m x 20m warehouse (4000m²), the average cleaning rate for one worker would be 400m²/hour. It would take at least 10 hours to get the cleaning done for the entire warehouse. If we were using the Ride On Sweeper SC2000 (Productivity 3180m²/hour). It would only take 1 operator, to do the cleaning for 1,5 hours
