PT. KENCANA MULTISEAL HIDROMATIK

Optimizing Performance

NPWP : 91.378.619.0-452.000: SPPKP: S-1097PKP/WPJ.08/KP.1103/2019

LINE OF BUSINESS

- Customized CNC Machine Seal for Hydraulic / Pneumatic, Valve, etc.
- Manufacture Hydraulic / Pneumatic Cylinder and Engineering Service.
- Custom Made Extrusions : Strips, Tubing, Sleeve, Cord.
- Custom Made Moulding: Bellows, Diaphragms, Discs, Expansion Joint, Rubber Component.
- Polymer and Rubber Sheets.
- High Pressure Hydraulic Power Tools and Equipment.
- Manufacture Mechanical Seals for Pumps, Mixers and Agitator.

PT Kencana Multiseal Hidromatik (KMH) started up in June 2019 in Tangerang and started its business by focusing on hydraulic / pneumatic repair and sealing system. Given that the sealing system in the world of industry has always been an integral part of it, KMH is committed to become a problem solver with the concept of providing an optimal solution for each application in many industries. To meet the increasingly high demands on product quality and service process fast and responsive, and the increasingly fierce competition, PT KMH feel the need to use technology that is capable in providing services to customers throughout Indonesia. There-

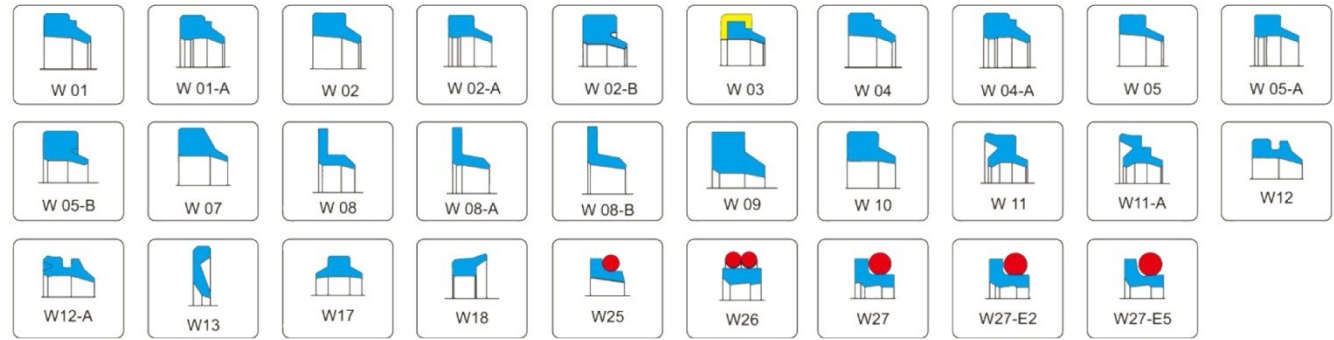

fore PT KMH equipped with CNC machines in producing various kinds of seals and also a reliable resource in the production process. As a result, PT KMH can produce products with high precision and fast delivery time. With the need for a "one stop service" of each customer, PT KMH also equip their products not only in the seal and repair services, but also a wide range of products such as: rubber parts, hose hydraulic / pneumatic, mechanical seal, the product seal standard / branded, gas-kets / packing, gland packing, etc

ELASTOMER & THERMOPLASTIC MATERIALS :

- | | | | |
|-----------------|---------------------|--------------|---------------|
| • NBR | • HNBR | • POM | • PTFE Pure |
| • SILICONE /FDA | • AFLAS | • PA | • PTFE Bronze |
| • EPDM FDA | • PU (POLYURETHANE) | • PEEK | • PTFE Carbon |
| • VITON | • HPU | • PTFE Glass | • PTFE Econol |

Standard Hydraulic and Pneumatic Cylinder Repair

- Grinding
- Honing
- Chroming
- Polishing
- Hard Chrome Plating
- Seal Set/kit

Product Services:

- | | |
|--------------------|--------------------|
| • Gland Packing | • Pads |
| • Extrusion | • Discs |
| • Sheet Rubber | • Bellows |
| • Adhesive Sealant | • Cylinder Repair |
| • Gaskets | • Cylinder Upgrade |
| • Mechanical Seals | • Metal Works |
| • Valve Seals | • Chrome Plating |
| • Diaphragm | • Hoses |

WE ARE ALSO AN AGENT OF **J-FLEX**

'HIGH PERFORMANCE RUBBER SHEETING AND MANUFACTURED COMPONENT'

Specialist Rubber Sheetings

Our extensive range of sheetings, including sponge sheetings, will suit all your gasketing needs, as well as providing optimal performance in the many areas of industry where high performance is essential for demanding applications

Manufactured Rubber Components

Whether its large or small, one-off or bulk orders, off-the-shelf or custom-made. At J-Flex, we provide a range of solutions – including mouldings, extrusions and fabricated components – all to meet your specific needs.

Typical Moulded components

- Bellows
- Boots
- Diaphragms
- O-Rings
- Discs
- Cups
- Grommets
- Rubber / Metal Bondings
- Covers
- Balls
- Sucker
- Vibrations
- Gaiters
- Seals
- Gaskets

2 part Viton Adhesive and 1 part Caulk Viton Sealant.

Only available from J-Flex, these high quality adhesive and gap sealant products are made with Chemours Viton 'B' - providing users with all the advantages of the most famous Fluoroelastomer.

Extrusions

J-Flex are able to supply an infinite variety of extruded profiles-accurately and efficiently. Mainly produced in silicon rubber (solid and sponge), we offer wide experience in section of sealing, silencing, insulating, channelling and protection.
