

PT INOVASI SAHABAT ALAM

COMPANY PROFILE

PT. Inovasi Sahabat Alam

We supply, you thrive!

About the Business

PT Inovasi Sahabat Alam, commonly known as ISSA, is a reputable company specializing in importing, distributing, and providing accessories, instrumentation, and control services. Renowned in the industrial sector for its commitment to quality and innovation, ISSA offers a comprehensive range of products tailored to meet the diverse needs of various industries.

In an industry driven by precision and reliability, ISSA prides itself on offering an extensive selection of products, including valves, dryers, filters, temperature measurements, level measurements, flow meters, flexible hoses, pumps, pressure gauges, fittings, and flanges. With a commitment to excellence, ISSA ensures that clients have access to all the essential components necessary for their operations conveniently under one roof.

Mission and Vision

Vision

To become a renowned mechanical supplier company in Indonesia.

Mission

- To establish enduring relationships with our stakeholders through the provision of quality products, exceptional services, and innovative solutions tailored to meet their needs.
- To consistently deliver trusted brands and reliable mechanical supplies while prioritizing customer satisfaction and fostering long-term partnerships with all our valued clients.

Our Products

1. Valves

Air Vent

Ball Valve

Butterfly Sanitary

Check Valve

Diaphragm Valve

Expansion Joint

Globe Valve

Foot Valve

Needle Valve

Reducing Valve

Steam Trap

Safety Valve

Y Strainer

Material : Cast Steel Bronze
 Forged Steel Brass
 Stainless Steel Pvc
 Cast Iron

Valve size : **¼" – 80"**
ANSI 150 - 4500

BONNEY FORGE

KITZ USA

VELAN

CRANE VALVES

GWC ITALIA SPA

2. Dryers

NATURAL GAS DRYERS

SINGLE-TOWER – STVNGX

Features

- ✓ Low cost
- ✓ External regeneration or desiccant replacement required
- ✓ AutoDew is a highly recommended option

Applications

- ✓ Low to high flows
- ✓ Low- to high-pressure designs
- ✓ Recommended for low-throughput (water content) fueling needs

REGENERATIVE NATURAL GAS DRYERS

SINGLE-TOWER – STRNGX-S

Features

- ✓ Closed-loop, operator-initiated, heat-reactivated regenerated cycles for reliable dryer regeneration control and shutdown
- ✓ AutoDew is a standard feature and will signal when regeneration is required

Applications

- ✓ Medium to high flows
- ✓ Low- to high-pressure designs
- ✓ Minimum downtime

REGENERATIVE NATURAL GAS DRYERS

DUAL-TOWER – STRNGX-D

Features

- ✓ Closed-loop, operator-initiated, heat-reactivated regenerated cycles for reliable control and shutdown
- ✓ AutoDew is standard and will signal when regeneration is required
- ✓ Manual valve switching between towers
- ✓ No downtime

Applications

- ✓ Medium to high flows
- ✓ Low- to high-pressure designs
- ✓ Recommended for medium-throughput fueling needs

REGENERATIVE NATURAL GAS DRYERS

DUAL-TOWER AUTOMATED – DTRNGX

Features

- ✓ Simplified operation - fully automatic regeneration package maximizes desiccant performance
- ✓ All models complete with regeneration package
- ✓ AutoDew is standard
- ✓ No downtime

Applications

- ✓ Low to high flows
- ✓ Low- to medium-pressure designs
- ✓ Recommended for medium- to high-throughput fueling needs

OTHER DESIGNS AVAILABLE

PORTABLE REGENERATION SYSTEM – RGNGX

Xebec offers two models of regeneration skids for mobile use. These portable units are specially designed for ease of transport and frequent relocation.

includes

- ✓ Two regeneration hoses with stainless steel flanges and firesleeve (10')
- ✓ Two regeneration hoses with stainless steel flanges and firesleeve (20')
- ✓ One power cable with connector (20')

Model No.	Connection	Approximate Weight & Dimensions			
		Width inches (mm)	Length inches (mm)	Height inches (mm)	Weight lbs (kg)
RGN18-30NGX-1.5	1-1/2"	69 (1753)	74 (1880)	101 (2565)	2100 (950)
RGN36-48NGX-2	2"	75 (1905)	99 (2515)	126 (3200)	2500 (1135)

CUSTOM DUAL-TOWER AUTOMATED – HRBNGX

Xebec also offers custom, high-pressure, high-flow units for industrial applications. Please contact us for more details.

Product Overview

Our air filtration products set the industry standard for quality and efficiency.

- **Surface Protection:** Housings made of cast aluminum or carbon steel, coated for extra durability.
- **Conformity with Standards:** Our filters meet ISO 8573, ASME, and CRN standards.
- **Simple Design. Easy Maintenance:** User-friendly design with secure installation and easy access for maintenance.
- **Optimized Accessories:** A range of accessories available for efficient equipment upkeep.
- **Filter Media Designed for Efficiency:** Hybrid filter media for superior filtration with increased stability.
- **Pleated Filter Elements:** Greater filtration area and reduced pressure for cost-effective operation.
- **Incorporated Drainage Media:** Stainless steel support ensures optimal flow and durability.
- **Two-Stage Dry Type Separation:** Pre-filter stage prevents contaminants from reaching fine filter media.
- **Abrasion-Free Activated Carbon Filter:** Long-lasting filter elements with integrated particle reduction.
- **Types of Filtration:** Various filtration options including water separation and oil vapor adsorption.

3. Filter

Brother Filtration

Brother Filtration, a prominent player in the water filtration industry, manufactures top-notch cartridges and filter housings that combine quality with cost-effectiveness. Our extensive product range caters to diverse industries, ensuring we have the right solution for every need. With over 50 types of high-flow cartridges, we're well-equipped to address a wide array of challenges.

COALESCE & SEPARATOR CARTRIDGE

Diverse choice and wide range of applications

DEPTH FILTER CARTRIDGE

Higher economic efficiency, shorter lead time

DEPTH PLEATED FILTER CARTRIDGE

High efficiency and high dirt-holding capacity for special fields

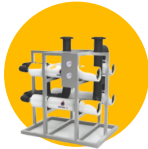

FILTER BAGS

Ideal choice for cost-effectiveness and high dirt-holding capacity

FILTER HOUSING

High-quality filter housings for liquid and gas.

FILTRATION SYSTEM

Always provides you with new trend products and new filtration solutions

HIGH FLOW FILTER CARTRIDGE

Practical and durable, high quality and high capacity

MEMBRANE PLEATED FILTER

Larger filter surface area and excellent contaminants capacity

MEMBRANE PRODUCTS

Offering you high-performance and cost-effective membrane as substitutes for..

METAL FILTER CARTRIDGE

Higher quality in order to meet your higher requirements

SYSTEM SPARE PARTS

Full range filtration system spare parts you need

4. Hose

Alfagomma

Solutions for various applications including Industry, Agriculture, Construction, Petrochemical, Shipbuilding, Oil & Gas, and Mining.

5. Fitting & Instrument

----- Fitting

Flowmeter :

Level :

Pressure :

Temperature :

Manifold :

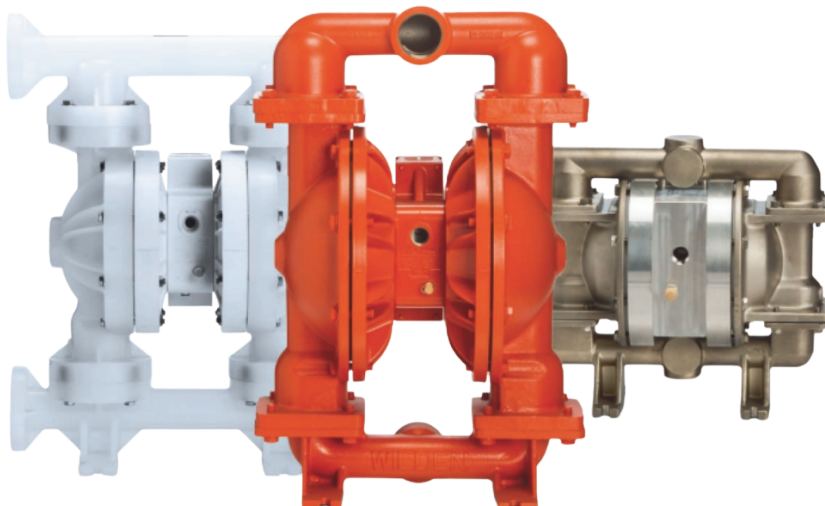

Materials : Stainless Steel 304
Stainless Steel 316
Stainless Steel 316
Cast Steel (WCB)

Size :
DN 20 – 500mm

6. Pump

Known for their rugged design, reliable service, and distinctive orange color, Wilden Pumps are widely used across industrial sectors including petrochemical, food processing, water evacuation, and nuclear waste processing.

7. Walnut

Walnut shell products for turbo cleaning, filter media, oil absorption, and jewelry polishing.
