ABOUT **LINKMET**

INSTRUMENTATION • CONTROLS

Linkmet Controls Pte Ltd is a regional Controls Instruments supplier to the Oil & Gas, Petrol-Chemical, Marine and Offshore industries, Chemical and Pharmaceutical plants.

Founded in 1989, we have 30 years of experience in the business. We are the Authorised Distributor of several well known brands of process control equipment and instruments such as Jordan Valve, Steriflow Valve, Low Flow Valve, Marwin Ball Valve, Hex Valve, Bestobell Steam Traps, IMI Bopp & Reuther Safety Valves, ZOOK Rupture Disks, Greyline Instruments and Red Seal Measurement.

Our product range includes Process Regulators, Pneumatic and Electric Control Valves, Pneumatic and Electric Ball Valves, Safety Valves, Instrument Valves, Steam Traps, Rupture Disks, Tank Blanketing Valves, Ultrasonic Flow-meter, Level Monitor Equipment, Pressure Vacuum Relief Valves, Flame Arrestors and Emergency Vents. We also provide after sales service for our products and our commitment to this area has won us many regular customers.

■ Pressure Regulators / Back Pressure Regulators

Size: 1/4" - 24" (DN8 - DN600), CV: up to 6,900
 Material: Ductile Iron, Bronze, Carbon Steel, Stainless Steel, and Cast Iron (other materials upon request)

Mk 60
Pressure Regulator

Mk 68G
Pressure Regulator

Mk 70
Control Valve

Mk 75
Control Valve

Mk 695
Gas Pressure Regulator

Mk 5108
Liquid Back Pressure Regulator

Mk 37
Electric Control Valve

Mk 80
Temperature Regulator

■ Pressure Regulators / Back Pressure Regulators

Size: 1/4" - 1" (DN8 - DN25), with CV up to 2.5
 Material: 316L Stainless Steel (other materials upon request)

JRLL/JRHL
Pressure Regulator

JR Series
Pressure Regulator

■ Control Valves

Size: 1/4" - 2" (DN8 - DN50), with CV up to 17
 Material: 316 Stainless Steel, Carbon Steel, Hastelloy, Monel, and Titanium

Mk 708
Control Valve

Mk 708MV
Control Valve

- Standard Service 2 & 3 Piece Ball Valves
- 3-Way Ball Valves (T / L Port)
- Pneumatic Actuators & Electric Actuators

3-Way Ball Valves

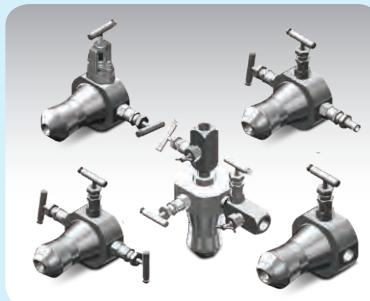

3-Piece Ball Valves

Flange Type Ball Valves

- Needle Valves
- Manifold Valves
- HexBlok Valves
(Single / Double Block and Bleed)
- Monoflange Valves
(Single / Double Block and Bleed)
- Monoweld Valves
(Single / Double Block and Bleed)

Monoweld Valve

HexBlok Valve

Monoflange Valve

- Delta Element Steam Traps
- Inverted Bucket Steam Traps
- Float & Thermostatic Traps
- Condensate Recovery Products

Size: 1/2" - 2"

 Working Pressure: Up to 2400 psi/160 bar
 Body Material: Cast Iron, Carbon Steel,

F11/Chrome Moly,

Stainless Steel

Delta Element Steam Traps

- Penta Valve Regulator / Control Valve:
For Gas, Liquid and Steam application.
- Pressure Regulators / Back Pressure Regulators
Size: 1/2" - 8"
Material: Carbon Steel, 304 SS, 316L SS
- Control Valves
Size: 1/2" - 8"
Material: Carbon Steel, 304 SS, 316L SS

 SP 4000
 Pressure Regulator

 SP 592
 Pressure Regulator

 SC 2000
 Control Valve

**German Made & German Engineered Safety Relief Valves****Hi Flow: Si 8 Series**

- Full nozzle design
- Orifice sizes D to T in full compliance with API 526
- Orifice sizes V and W also available for very large flows
- Large range of materials and design options meeting all specifications
- Approvals: VdTÜV; PED 97/23/EC (CE); ASME III/VIII

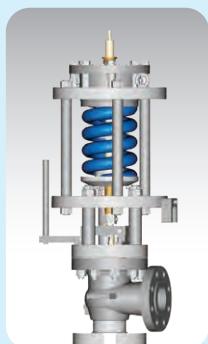

Si 8 Series

Si C1 Series

Regular Flow: Si C1 Series

- Universal compact safety valve
- 3 seat sizes for appropriate size selection
- Available in EN, ASME or threaded connections
- Approvals: VdTÜV; PED 97/23/EC (CE); ASME VIII

Si 9 Series

Si 9 Series

- Full nozzle design
- Stable position at full lift by mechanical lift stop
- Fixed overpressure and adjustment according to ASME Sec I with no adjustment rings hence no requirement for adjustment
- Approvals: VdTÜV; PED 97/23/EC (CE); ASME I, III, VIII

- Pilot Operated Safety Relief Valve
Model: F7000/8000 Series
- High Pressure Relief Valve
F84/85 Series Safety Relief Valve
F70PR Series, Pressure Relief Valve

F7000/8000 Series

F84/85 Series

- Metal Rupture Disks -reverse acting/ forward acting
- Graphite Rupture Disks
- Sanitary Rupture Disks
- Transportation Rupture Disks
- Custom Welded Assemblies
- Explosion Vent Panels
- Burst Sensors/Indicators

RA Series

Pre-Torque Holder

Mono Type

Zanitary® Series Bursting Disk

Custom Welded Assemblies

Greyline is a worldwide leader in ultrasonic instrumentation for wastewater, industrial, and environmental markets. Since 1986, Greyline has developed, manufactured, and marketed industrial flow and level monitoring instruments including clamp-on ultrasonic flow meters and open channel flow meters.

Pulsar Process Measurement Ltd manufactures and supplies level, volume, open channel flow, pipe flow, and sludge interface measurement and pump control instrumentation. Since 1997, Pulsar has risen to become one of the world-leading non-contacting measurement instrumentation manufacturers and their products are used in a wide variety of applications.

TTFM 6.1
Transit Time Flowmeter
