about us

PT. SEKAWAN

Established in 1956

PT Sekawan has more than 50 years of experience in textile machinery in Indonesia

PT Sekawan has more than 50 years of experience in importing, supplying, servicing as well as acting as an agent for machineries, parts, accessories, belting, and testing instruments for textile machinery in Indonesia.

We are trusted name in industry and seek to build lasting partnership with suppliers and customers from all over the world. Our team is made up of experienced professionals equipped with extensive product and market knowledge. The biggest name operating in the textile industry come to us for parts and service. We return their confidence with excellence in professional service and top of line products. A network of six well stocked branch offices throughout Java keeps us informed of the latest developments in new factories, and companies who can benefit from our products and services.

Over the next decade, Indonesia's vast potential will continue to attract foreign investment, and PT Sekawan will be ready to meet and serve the latest development in Textile Industry.

The fluctuations in the world's economy have not kept Indonesia's textile industry from performing at notable rate of growth, in particular during the past few years. The industry has displayed the competence grow in balance with order rapidly developing industrial sectors in the country. With the strong commitment to success and the ability to adjust itself to the rapid development of modern technology, PT Sekawan has successfully passed more than 50 years of vast challenges in the selling of machinery and spare parts for the textile manufacturing industry.

In preparing itself to anticipate the bright future of textile industry in Indonesia, PT Sekawan strives to develop greater cooperation with foreign manufactures of machineries and equipments required by industry.

The company is currently represented by six branches located in Indonesia's major industrial centers

The company is currently represented by six branches located in Indonesia's major industrial centers, including Jakarta, Bandung, Pekalongan, Semarang, Solo, and Surabaya. The branch offices are supported by professional staff with both local and highly educated foreign trained background in technology and marketing.

Due to increasing demand from our customers, our marketing activities are divided into products important for textile industry that enable us to provide in depth technical information and better service to our customers. In order to assist our customers to meet their urgent requirement, we also maintain sufficient stock of important parts in every branch's warehouse. Appropriate management of change and strategy formulation as well as the commitment of actuation by the company's highly motivated personnel underlies our confident steps forward toward the return of the third millennium.

we continue commitment to our customer's satisfaction

PT Sekawan is a truly fine and solid company, with strong integrity and commitment that bolster trust from our clients and also our suppliers. With 50 years of experience, we continue commitment to our customer's satisfaction.

We are ably supported by loyal and experienced staffs. Our staffs, from marketing to operation, are some of the most professional and dedicated employees in the textile industry. They pride themselves in always giving their best and the job well done.

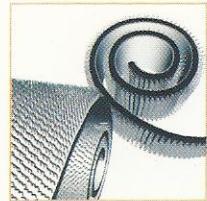

PT Sekawan has continuously risen the occasion every time, all the time. We bring the best quality in service and products to our customers and diligently maintain good relation with our suppliers and customers. With a tradition of excellence and integrity, we are the company you can trust.

Indonesia's vast potential in textile industry will bring great foreign capitals to invest in this particular industry over the decade. PT Sekawan will continue harness this opportunity as PT Sekawan reached its 50 years mark. PT Sekawan will maintain its commitment to excellence and to the customer's satisfaction.

PT Sekawan is well prepared to the incoming investments in Indonesia's textile industry and constantly aware of the development of new technologies to enhance the productivity and quality of our client's products.

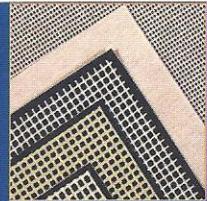

PT Sekawan is a dynamic organization and is a continuously growing business entity, leading the way in the use of high technology equipments and methods in enhancing the quality of our products and services. PT Sekawan will continue to set the benchmark of which other companies in Indonesia would follow.
