Dear Valued Customer,

Swagelok Company's excellent reputation is a reflection of Swagelok's long-standing commitment to being the global source for fluid system solutions. As further evidence of Swagelok's dedication to serving you, we have exciting news to share about a recent change at Swagelok's authorized distributor in Indonesia.

Swagelok is pleased to announce that Mr. Ruben Lalamentik is the new Distributor Principal of Indofluid System Technologies Pte Ltd., which is authorized to operate using the promotional name "Swagelok Indonesia".

As the owner and managing director of Indofluid System Technologies, Mr. Ruben will continue to have responsibility for serving Indofluid System Technologies' customers in Indonesia. Taking the lead as the new Distributor Principal, Mr. Ruben plans to move Swagelok Indonesia's headquarters from Singapore to Indonesia, and to consolidate operations of Indofluid System Technologies Pte. Ltd. with PT. NusaFluid Solusi Utama ("PT. NusaFluid"), which is also wholly owned and operated by Mr. Ruben. The targeted transition completion date of the movement of headquarters is **1 January 2025**.

In Indonesia, Mr. Ruben will continue to operate his two businesses under the name "Swagelok Indonesia". Swagelok Company fully supports Mr. Ruben in his business plans and looks forward to working with PT. NusaFluid and Indofluid System Technologies Pte. Ltd. and their teams of fluid system solutions experts.

Mr. Ruben has experience in electronic engineering and 25 years of experience in Indonesia's instrumentation industry. He has been actively involved in fluid system business and conversant with Indonesian market dynamics, business culture, navigating regulatory landscape and ensure compliance. Mr. Ruben, and his Swagelok Indonesia team, will continue to focus on enhancing customer experience and strive to improve the supply chain, project management and regional coordination. Under Mr. Ruben's leadership, PT. Nusafluid and Indofluid System Technologies Pte. Ltd. will be your go-to expert for fluid system solutions.
